BUDGET SPEECH 2026-27

Distinguished Members of the Council,
First of all, I would like to thank all the members of the Council for their continuous co-operation and support in the process of transforming the NDMC as most progressive municipality of India in terms of sustainability and self-reliance.

I also extend my gratitude to the citizens of New Delhi, my esteemed colleagues and all stakeholders for their consistent efforts in development of NDMC area. Together, we will build a New Delhi that stands as a lighthouse of modernity, sustainability and civic responsibility.

The New Delhi Municipal Council is at the heart of our nation's capital and we must strike a balance between modernization and environmental preservation while addressing the needs of our citizens, businesses and visitors alike. This budget reflects our continued commitment to transform New Delhi into a city that not only preserves its rich heritage but also embraces innovation, sustainability and inclusive growth with the concept of "**Vikas Bhi Virasat Bhi**".

The New Delhi Municipal Council (NDMC) is undertaking a comprehensive transformation of its urban infrastructure aligning with "**Vision @ 2047**" to build a sustainable, resilient and future-ready city.

We aim to set new benchmarks in municipal governance through innovative and strategic initiatives across key areas such as:

A. Human Resource Management

Human Resource Management is a strategic pillar for achieving organizational goals. The exemplary contribution of NDMC employees during the G-20 Summit and recent rainy season stands as a testimony to their dedication and professionalism. In recognition of their efforts, following steps were taken in the current financial year.

A.1 Settlement of Long Pending Pay and Pension Issues

In order to resolve the long pending discrepancies in pay/pension related issues, a Anomalies Committee has been constituted which has resolved 15 pay/pension related issues covering 814 employees.

(a) MACP/NFSG

Sincere efforts have been made to grant Modified Assured Career Promotions (MACP) to all eligible regular employees. A total of 4,357 employees were granted MACP cases till December 2025.

(b) Creation of Pension Desk

We are in process to create dedicated Pension Desk to expedite and ensure timely completion of all procedural requirement so that employees receive retirement benefits on the day of retirement.

A.2 Appointment/ Promotion

(a) Departmental Promotion Committee (DPC)

The personnel department conducted 81 DPCs, resulting in promotion of 954 officials in various categories.

(b)Requisitions to DSSSB/UPSC

Eleven requisitions have been sent to the UPSC for DPC of 32 vacancies and similarly 32 requisitions have been sent to DSSSB for 354 vacancies across various posts.

(c) Compassionate Appointments

One hundred ten eligible applicants were recommended by the Sub-Committee against death cases. Appointments are likely to be made by March, 2026 after completion of other procedural formalities.

A.3 L M H Scheme for Contractual Employees

We are in process to extend the Liberalized Medical Health Scheme to contractual employees.

A.4 Implementation of e-HRMS and payroll system

Implementation of a comprehensive **e-HRMS and payroll system** to enhance transparency, accountability, and efficiency has been initiated.

Resolving the issues of employees is extremely necessary to make them more focused on their work instead of pursuing their matter with various authorities. This process will be continued in the next FY 2026-27.

B. World-Class Education

The educational landscape is evolving at an unprecedented pace driven by rapid technological advancement and the complex demands of the 21st-century students. While keeping the Indian knowledge system as core of learnings, Education department

NDMC has taken various novel steps aligned with NEP 2020. One of the most prominent initiative is design of “Vikas bhi Virasat bhi” framework for students focusing on Indian philosophies, yoga, mantra chanting, learning in natural surroundings, Swatchta and environmental stewardship, launched by Delhi Chief Minister on 4th September, 2025. 240 NDMC teachers are now better equipped with updated pedagogical skills, Artificial Intelligence (AI) in educational knowledge, IKS and mental health assessment through a curated capacity building programme in collaboration with Shailesh J. Mehta School of Management and IIT Bombay. A teacher’s resource centre has been developed for encouraging ambience and focused better learnings. To make our students future ready, hands-on workshop was conducted in collaboration with Homi lab about the basics of AI, 15+ AI tools with its ethical use. Now NDMC has 300 ACES of AI. Outstanding CBSE Board Result achieved in FY 2024-25 with highest pass percentage in the history of NDMC in Class-10 and 12 is 99.44% and 98.46% respectively.

- (i) Development of sports infrastructure and training of Students with specialized coaches is one of the key focus areas of the NDMC so as to cultivate national / international sportspersons from the NDMC schools. To strengthen sports education and promote excellence among students, NDMC has engaged 14 coaches across 10 sports disciplines, namely Cricket, Hockey, Football, Volleyball, Basketball, Badminton, Table Tennis, Lawn Tennis, Wrestling, and Boxing. This initiative has ensured continuity and improvement in sports coaching programs

across NDMC schools. NDMC is in process of engaging the professional sports academies under Public-Private Partnership (PPP) model to impart quality training to NDMC students. It will be finalized in the current FY 2025-26.

- (ii) We have target to make all around development of NDMC Schools including world class infrastructure. Moving ahead to our motive, a dedicated division is being created for all engineering works of Education Department.
- (iii) Encouraged with the visit of hon'ble Prime Minister on 2nd Oct., 2024 on the birth anniversary of Mahatma Gandhi and as 10th Anniversary of the 'Swatchhta Campaign' at Pandara Road School, we are persistently developing this school as role model school for rest of the city. Architectural consultant has already been appointed for comprehensive upgradation of the school infrastructure. This project is likely to be completed in the next FY 2026-27.
- (iv) A committee is being constituted to visit all the Schools in the month of January every year to recommend infrastructural and other requirements in the Schools which will be executed in the summer vacation. By doing this the Schools will be upgraded periodically as per need of the hour without any disturbance to school functioning.
- (v) A healthy diet for primary students is the foundation for both physical growth and optimal cognitive function (learning). **The "PM**

Poshan Scheme” has already been implemented in all the schools of NDMC. It is essential to supplement the mid-day meal diet with rich in Omega 3 Acids, protein and other essential nutrients which are necessary for growth, vital for memory, focus, attention span, and overall cognitive function.

- (vi) To keep in touch with the alumni and leveraging their position for monitory as well as academic assistance a **“Alumni Model”** is being formulated for overall growth of the students.

C. Night/Staggered Cleaning: Maximum Efficiency with Minimum Disruption

In order to achieve the target of maximum efficiency with minimum disruption, a program of cleaning in the night and staggered timing was introduced last year. The logic behind the move was that sanitary workers of municipality will get enough time to clean the areas which otherwise become cumbersome during routine working hours. This project has not only reduced disruption to regular activities but also makes the area fresh and ready for the activities in the morning. Sanitation operations were significantly reinforced, especially in high-footfall commercial areas. Major markets such as Connaught Place, Khan Market, Janpath, Sarojini Nagar, Bengali Market among others experienced intensified cleanliness measures including increased wet mopping, night sweeping and mechanized deep-cleaning activities. The deployment of 3 e-karts, 15 battery-operated sweepers and 27 dedicated wet-mopping trolleys in market areas has enabled the maintenance of world-class sanitation standards across these busy public spaces. This will be

expanded in entire NDMC area which has 14 markets having 150 km. major footpaths and 132 avenues roads for which many more machineries are being procured. The project of night sweeping drive in all the markets is likely to be started in next FY 2026-27.

D. Strengthening of Water, Drainage & Sewerage System

Our goal is to ensure uninterrupted water supply throughout the year by strengthening distribution networks, modernizing water treatment facilities and adopting smart water management. A project under “**Har Ghar Jal Yojana -AMRUT 2.0**” is in progress to provide water connections in 34 JJ Clusters. A pilot project of 24x7 water supply is also in progress at Vinay Marg area.

This year we are targeting to (i) modernize infrastructure for improving system resilience, (ii) Non-Revenue Water (NRW) to globally acceptable levels by eliminating leakage and unauthorized usage, for which we replacing old and delapidated pipes in Golf Link, Pandara Road and Maharshi Raman Marg etc., (iii) Water conservation, (iv) Setting measurable benchmark for service delivery, accountability at every stage of implementation, (v) Integration with SCADA for 24x7 monitoring and (vi) Installation Smart Water Meters at the source and consumers point to conduct water audit.

Further, we have taken up the matter with Ministry of Housing and Urban Affairs for rehabilitation of NDMC sewerage system for sanctioning of projects worth Rs. 556 Crore under the Urban Development Fund (UDF) Scheme. This will enable NDMC to augment sewerage system in a phased manner within a span of 5 years, which will eliminate the chances of sewer line

settlement causing dangers to the lives and the properties. The process is at advance stage and likely to be materialized in the FY 2026-27.

D.1 Water logging free NDMC: Monsoon Management

During the recent monsoon season, the NDMC area witnessed a significant achievement. Despite episodes of heavy rainfall, negligible instances of waterlogging were observed. This outcome was the result of meticulous planning and timely execution of a comprehensive Monsoon Action Plan.

Building upon these successes and the lessons learned, NDMC has reviewed its preparedness framework and formulated an enhanced plan for the coming monsoon seasons. In order to curtail water logging, identification and isolation of Sewerage and Drainage lines is in process.

Future initiatives including **“Preparation of comprehensive Drainage Master Plan”** which will ensure the condition assessment of old storm water drains and detailed project reports (DPR) for improvement of the entire drainage system within NDMC area for next 25 years. As an interim arrangement the construction of Dewatering pump houses, additional storm water drains, remodeling of existing drains, desilting of outfall drains, creation of additional rainwater harvesting pits and early engagement with all allied agencies to ensure advance action and preparedness are going on. **We are not only planning to avoid water logging in NDMC area but also planning to store the water for use in summer season.**

D.2 Modernization of Sewerage System

For the improvement of sewerage infrastructure, NDMC has successfully rehabilitated a substantial length of **10 Km** sewer lines using trenchless technology. The work of sewer rehabilitation at Copernicus Marg through trenchless technology is in progress. This modern approach has minimized surface disruption while improving system performance and longevity.

Further, NDMC plans to rehabilitate additional **30 Km** sewer lines using state of the art technologies for further strengthening the sewerage network, increasing sewage carrying capacity, reducing leakage/blockages, enhancing public hygiene and environmental protection.

In order to prohibiting manual scavenging/ sewer cleaning, advanced machines are proposed for preventive maintenance and de-silting of sewer lines ranging from 150 mm to 2100 mm dia and for day-to-day maintenance. The proposal includes hiring of 05 pressure jetting-cum-sewer suction machines for a period of 07 years. The proposal is under tendering stage and operation of machines is likely to commence in the next FY 2026-27.

For strengthening of existing water supply, sewerage and drainage system, we are targeting to (i) Purchase 12 water tankers of 9 KL capacity (ii) Establish a new World class Water Supply Control Room at Old R.K. Ashram Marg (iii) AI-based flood prediction and digital twin modeling for proactive management (iv) Implementation of bioswales, wetlands and modular storm water tanks (v) IoT sensors for drainage systems and automated flood

response (vi) Integrated Command & Control Centre for Centralized monitoring and management and (vii) GIS-Based Asset Management for comprehensive mapping and lifecycle management of infrastructure.

E. Innovative NDMC: Best Municipal Practices

NDMC has capacity and opportunity to become a model municipality. NDMC has created an Innovation Fund in line with the Government of India's vision to promote innovative initiatives and adoption of new technologies. We have target to implement innovative and best practices in the NDMC such as:

E.1 Generating Hydrogen and Electricity through DSTP

Under this initiative, a pilot project for 50 KLD Decentralized Sewage Treatment Plant (DSTP) at Bharti Nagar is being developed which will also generate hydrogen for generating electricity for making the plant self-sustained.

E.2 Emission Free NDMC: Net Zero Carbon Emission Benchmark

In a climate-sensitive world, it is imperative to assess and reduce our carbon footprint and to leverage environmental initiatives through mechanisms such as Net Zero Carbon Footprint benchmark. Hon'ble Prime Minister of India has set target to make India as Net Zero Carbon Emission Country by 2070. NDMC acknowledges its environmental responsibility and committed to align its actions with this initiative of the Government. Accordingly, **first time in the NDMC**, we are in process to achieve Net-Zero Carbon Emission pathways in collaboration with TERI (The Energy and Resources Institute). The project is likely to take off in the FY 2026-27.

E.3 End to End School Life Solution Module

In order to align with international best practices, we are targeting to develop an “End to End School Life Solution Module” which will be able to provide complete academic solution starting from online school admission to Management Information System (MIS) of complete academic life of the student comprising of attendance, health, test results, generation of TC on real time basis so that trends and pattern of student’s performance are available to the stakeholders at a click of mouse. Similarly, performance of school faculty would also be monitored through this module.

E.4 Dust Free NDMC : Air Quality Improvement and Dust Control

To address air quality concerns and reduce particulate pollution, NDMC is transitioning from manual brooming to vacuum based mechanized cleaning systems. This includes the procurement of mechanical road sweepers, leaf suction machines, gobblers, push back suction sweepers and water jetting machines for footpath cleaning. Additional measures include regular washing and cleaning of trees, installation of mist spray systems, deployment of both static and dynamic anti-smog guns at strategic locations. These interventions, combined with expanded green coverage, will significantly curb dust generation and contribute to sustained improvement in the Air Quality Index within NDMC areas.

E.5 Generating Water Source and Creating Multipurpose Smart Irrigation System

NDMC recognizes the importance of water as a valuable resource and is committed to its efficient and judicious use. Traditionally, there were separate system

for irrigation, footpath washing and washing of green belt through water tankers causing burning of fuel and deployment of substantial manpower, disturbance to traffic and erratic service due to VIP route. Now, we are in process to lay dedicated lines with the provision of hydrant at calculated distance which will cater to all above requirement i.e. Drip-Irrigation, washing footpath and green belt. Smart irrigation system is being implemented along 11 roads this year. I propose to extend to implement smart irrigation system along 13 roads and in 03 important gardens in the FY 2026-27. In addition, 5 defunct open wells, 5 bore wells and 5 underground storage tanks are being revived.

E.6 Miyawaki Afforestation-Natural Vertical Garden

Miyawaki forest is a dense and fast growing multi layered urban forest which is created using a method invented by Dr. Akira Miyawaki a Japanese botanist. Planting native species close together to mimic natural ecosystem leading to self-sufficiency within few years, making them effective for urban greening and restoring habitats on small plots. First time in the NDMC, we have identified a Park near Nazaf Khan Road, Lodhi Colony for development of Miyawaki Forest to enhance urban greenery and to make the city more livable for the human and other species.

E.7 Paint with Solar Charge

Photo-Luminescent Paint absorbs sunlight during the day and emits a soft glow at night thus improving visibility and reducing reliance on electricity in the night. We are in process to implement the same for some selected roads or signages or Floors on experimental basis.

E.8 Single Sign on (SSO)

Single sign on is an authentication method letting users log in once with one set of credentials (Username/Password) to access multiple independent applications and system without re-authentication at each one. This system will streamline access of the citizens on various applications of NDMC for better, faster and transparent delivery services.

E.9 NextGen eHospital

Complete onboarding of all NDMC hospitals and dispensaries onto the NextGen eHospital application to streamline hospital workflows and enable an integrated digital platform covering OPD, IPD, diagnostics, billing, inventory, allied services, reporting and dashboards. This will also helpful to analyse and monitor outbreak of any kind of disease through database of patients.

F. Administrative Reforms and Project Delivery

India celebrates “Good Governance Day” on 25th of December every year on the eve of birth anniversary of former Prime Minister Sh. Atal Bihari Vajpayee. Inspiring from above initiative, this year, NDMC has implemented significant administrative reforms. The earlier complex procedures right from obtaining administrative approvals till awarding of works have been simplified. These reforms are already yielding faster decision making, timely execution of projects and improved accountability thereby strengthening governance and service delivery. Mainly following steps have been taken for speedy materialization of the projects.

F.1 Standardization

- a) **TAT:** Turnaround Time was fixed for all activities in the lifecycle of tendering process.
- b) **Model RFP:** Model RFP document was formulated for use of all departments in NDMC.
- c) **Model NITs:** Total 08 model NITs were created for various tendering activities of Civil and Electrical department.

F.2 Process Simplification

- a) A committee headed by FA was constituted. The Committee made 24 recommendations for simplification of processes and increased efficiency which have been implemented after approval of the Council.
- b) **Introduction of Garage Meetings for Inter-departmental synergy**
In order to reduce avoidable to and fro movement of the files and to bring various departments on the same page, the concept of Garage meetings and recording the minutes have been introduced.

F.3 Institutionalization of Monitoring Mechanism

In order to arrest the delay, ensure timely completion, provide timely guidance and promote inter-departmental collaboration, the process of monitoring was institutionalized multiple committees including RMC-headed by Chairman were formed and regular meetings were conducted for close monitoring.

F.4 Re-alignment of NDMC Area in to 14 Circles

Electricity, Horticulture and Civil department have been re-aligned in line with the 14 Sanitation Circles for better coordination and monitoring. An additional layer of Director/CE level officers has been created as Nodal Officer of these 14 circles for physical monitoring to resolve the deficiencies then and there either through respective department or themselves with the special financial powers delegated to them up to Rs.5 Lakhs for each such deficiency.

F.5 Heat map of Grievances and Complaints redressal

Complaints received through various mode including NDMC 311 App are monitored regularly and heat map of complaints has been prepared to resolve the chronic complaints received for a particular area.

F.6 CAPACITY BUILDING & PROFESSIONAL EXCELLENCE

Over the past year, a total of 3,456 employees were trained across 14 different programs. These included training for ministerial staff (50), CCS Rules (1,367), masons (132), engineers (190), linemen (110), Palika Sahayaks (1,000), plumbers (49), gardeners (120), and painters (125). These programs strengthened departmental skills and enhanced overall organizational capacity. In addition, training on the tendering process for engineers from CPWD, along with financial literacy and awareness programs have also been conducted.

Looking ahead to FY 2026–27, several training initiatives are planned to further build workforce capabilities. These include training of 202 civil and electrical engineers, a welder and fitter program for 20 participants, an advanced sanitation training for 80 SIs

and ASIs and 59 Clerical staff will receive training in noting/drafting and file management while another 59 employees will be trained in MS Office and AI systems. Specialized programs are also proposed including carpenter training for 30 participants, wireman training with 40 participants per batch and a capacity-building program for 250 Palika Sahayaks for motorized sweepers. Collectively, these initiatives underscore the organization's commitment to continuous learning, skill development, and organizational excellence.

F.7 Glaring Improvements after Implementation of Aforesaid Transformation Process

- a) 27 works with PV> Rs. 01 Crore have been awarded within 05 months period between July and November 2025. Another 48 works are likely to be awarded in next 30 to 45 days time. Earlier these works consumed years in materialization.
- b) 07 cases pending for > 3 years another 12 cases pending for > 2 years were quickly processed and awarded.
- c) Time for completion of Tendering process has been drastically reduced. In 70 % cases time reduction was greater than 50%. In 30% cases time reduction was greater than 75%.
- d) Complaints have also been drastically reduced which is an indicator of increased level of satisfaction amongst citizens of NDMC area.

- e) As a result of capacity building, the employees are equipped with professional knowledge and doing the job which used to outsource earlier.
- f) As a result of regular monitoring Court cases and emphasizing of “**Samvad Se Vishwas**” the Court Cases have been reduced significantly.

G. Solar Energy Expansion

Sustainability remains at the heart of our agenda. We will enhance solar energy adoption across municipal buildings and public spaces, aiming to reduce carbon footprints while promoting renewable energy. It has already installed grid connectivity roof top solar PV plant in all Municipal buildings. Under “**PM – Surya Ghar Muft Bijli Yojna**” and with the aim to “Sure, Pure and Secure”, the potential and feasibility of installation of roof top solar in Government and private building is being explored in consultation with TERI. NDMC has also embarked upon ambitious journey of shifting to 100% renewable energy municipal body of the Country by **the year 2028.**

H. Public Art and Culture

The scheme “**Art with Heart**” announced earlier by NDMC with installation of theme-based sculptures at major roundabouts and prominent places. This concept gathered appreciation not only from the citizens but also remained in the lime light during the G-20 Summit. A creative hub for artists and performers is being formed for further improvement of cityscape.

As a token of its commitment, the council, has already given approval in principal for allocation of budget envelop of 1% within NDMC budget for promotion of culture as well as promotion of performing and visual arts in NDMC area which works out to Rs.60 Crores

approx. for the FY 2026-27.

More eminent and senior professionals will be engaged to leverage their expertise to make the NDMC area esthetically beautiful.

To conceptualize “**Vikaas bhi Virasat bhi**” we are in the process of setting up a ‘**Veerangna Museum**’ by Comprehensive Conservation of Gole Market Heritage Building and its adjoining areas along with its structural strengthening and aesthetic improvement which is likely to be completed in the next FY 2026-27.

I. Environment-Horticulture

NDMC takes pride in its gardens and intends to further develop them in a manner befitting their location. Landscape architects are being engaged to design/develop the major gardens so as to make NDMC area as model horticulture city of the world.

NDMC has implemented a range of proactive environment improvement measures especially regarding air pollution. In addition to maintaining a focus on promoting greenery and expanding the green cover to mitigate the spread of dust, NDMC has deployed smog guns for settling the dust and polluted particles on the ground leading to improved air quality. We are continuously using Mechanical Road Sweepers to clean the roads and give them a fresh look. We have launched a “**One Day One Road**” programme wherein intensive cleaning and washing of trees, roads and pavements is taken up for an identified road every day. We are also in process of installation of Mist Spray on electrical poles in NDMC area. We have already made a policy to switch to only electric vehicles in a phased manner and have augmented e-charging points to

encourage use of electric vehicles. NDMC is steadfastly committed to achieve these goals as part of its dedication to reduce carbon emissions and promoting sustainability.

To enhance aesthetics and to add colour to the city landscape NDMC is going to procure 5.53 lakhs tulip bulbs for NDMC and DDA in this winter. In order to emphasize “Make in India” concept, we have developed around 15000 tulip bulbs inhouse and 20700 at Palam Pur, Himachal Pradesh. Like last year, we propose to organize a tulip festival which was greatly appreciated by all tulip lovers. We are also planting various variety of flowers in parks garden, roundabouts and road avenues across the city for all to enjoy the beautiful landscape. A Drive of “**EK PED MAA KE NAAM 2.0**” for plantation of one tree by the employees/dignitaries was organized during current FY2025-26 under which more than 3500 trees were planted. We will continue **plantation of trees under this scheme on every Sunday** in the coming year.

I.1 Plantation Drive Converting brown patches into greens

One of the key focus areas of the Budget is New Delhi’s commitment to becoming a greener city with emphasis on expansion of parks and green spaces and implementation of large-scale tree plantation drives along roadsides, in parks and across public spaces. These initiatives will not only improve air quality but also provide enhanced recreational spaces for residents. Brown patches that have developed over a time due to multiple factors will systematically be converted into green areas. During the current Financial Year around 3,426 trees, 29,93,429 shrubs and 502 bamboos have been planted. Additionally, to cover gaps in existing

plantations 5100 trees and 4,71,150 shrubs will be planted in the next year 2026-27.

I.2 Horticulture Development and Water Sustainability

In the area of horticultural improvement and sustainable water use, NDMC has already commissioned 10 decentralized sewage treatment plants to utilize treated effluent for irrigation purposes. This initiative has significantly reduced dependency on potable water for green areas.

Going forward, I propose to establish twelve additional decentralized sewage treatment plants and five effluent treatment plants. More than twenty bore wells will be installed along with an expanded water supply network across green belts and along major roads. These measures will serve two purposes i.e. it will lower down the raised ground water table and support drip irrigation systems which is proposed to be laid along the major VIP roads and Parks to improve plant health and ensure optimal utilization of treated water resources while enhancing the aesthetic and ecological value of NDMC green areas resulting into air pollution reduction.

J. Integration of all IT system

NDMC has taken several IT-based initiatives through technological intervention for strengthening of e-Governance and m-Governance during the last few years to improve efficiency, effectiveness and economy in providing civic services to citizens in an equitable and transparent manner. This has helped NDMC in achieving the highest award i.e Prime Minister's Award for Excellence in Public Administration, 2021. This ultimate recognition for public service coming to a

municipal organization is a unique distinction. Presently there are many applications running in the NDMC. I propose to develop a mechanism to integrate various standalone software applications which will enhance delivery of services in more efficient and transparent manner.

We are also in process to monitor centrally all the services and utilities through state of art ICCC already operational in the Palika Kendra building. In the first phase all the service vehicles, road lights and CCTV cameras are being connected with the ICCC.

K. Re-development of Markets

Markets are the lifeblood of our economy, contributing significantly to local employment, entrepreneurship, and the overall vibrancy of our city. I propose key initiatives for Market Development such as (i) Infrastructure Revitalization by introduction of green and sustainable infrastructure, including energy-efficient lighting, (ii) Safety and Accessibility through installation of CCTV cameras and upgrading footpaths, ramps, so as to ensure accessibility for all including senior citizens and persons with disabilities, (iii) Infrastructural development in common area and façade standardization and (iv) Deep cleaning in night and staggered timing.

Together, let us pave the way for markets that not only drive economic growth but also enrich the lives of residents and visitors. To start with, the work of redevelopment of Prithviraj Market, Akbar Bhawan and Super Bazar will be taken up in the next FY 2026-27.

L. Smart Public Convenience

New Delhi Municipal Council will strive to make itself a model of urban hygiene, self-sustaining and ecofriendly sanitation services that promote inclusivity in public convenience while using latest technology. It will also ensure that the facilities are accessible to everyone including people with the disabilities, senior citizens, women and third gender.

NDMC plans to upgrade and convert all its existing PTUs/CTUs into state of the art designs having eco-friendly features and efficient disposal management. PTUs/CTUs are being upgraded and maintained through revenue model.

M. Revenue Management

NDMC needs to strengthen its revenue collection system so that long term goals of expenditure on various civic amenities are achieved by keeping in mind rapid growth and increased demand of high quality services in the city. It is a need of hour to take various reforms to streamline entire process of revenue collection, be it property tax, license fee, electric/water charges and parking fee. We are in process to geo tag all the properties in NDMC with unique number so as to optimize the revenue of NDMC. A special drive shall be launched to receive/collect the arrears of revenue in a time bound manner.

As part of our commitment to transparency, efficiency, and modern governance, I am pleased to present our proposal for transitioning to a 100% digital payment system in NDMC. This initiative reflects our vision of establishing NDMC as a smart and forward-looking administrative body.

Key Highlights of the Initiative:

- (i) To eliminate Manual Transactions in the FY 2026-27, NDMC will phase out payments and receipts through cash, cheques and demand drafts. All transactions, including taxes, utility bills, fines and vendor payments will be made through secure digital platforms.
- (ii) Streamlined Digital Platforms by expansion of NDMC's existing digital payment channels, including NDMC's mobile app, online portals and QR code systems at counters.

This shift to a fully digital payment ecosystem is not just a technological advancement but a step towards more inclusive, accountable and efficient governance. I urge all stakeholders to support this transformative journey and help NDMC to set an example of smart city initiatives.

N. Electricity

In order to strengthen and transform the electricity distribution in the capital city of country, NDMC has been selected by the Central Government for financial assistance under **Revamped Distribution Sector Scheme (RDSS)**. This will improve the quality, reliability and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution mechanism. The financial assistance covers Prepaid Smart Metering, upgradation of distribution infrastructure, reduction of technical and commercial losses. As a part of ease of doing business, we are targeting to introduce smart load sanction portal linked with the “Digi Locker” for convenient of the citizens.

N.1 SCADA Centre

We are also targeting to make world class electricity SCADA Centre at Babu Samaj Kendra, Panchkuian Road. Electricity related offices will also be shifted there to resolve all the electricity related issues at one place.

O. Modernization of NDMC Public Buildings

A Building Assessment Committee has constituted to guide phased modernization of NDMC buildings with emphasis on space optimization, energy efficiency, adaptive reuse, monetization and digital asset management. This will enable transformation of public buildings into citizen-friendly, energy-efficient and revenue-supporting civic assets while reducing long-term maintenance costs.

O.1 Differently Abled Friendly Building

Pursuant to recommendation of specialized agencies, we are in process to further upgrade NDMC building as more differently abled friendly and accessible for senior citizens.

O.2 Upgradation of Aanchal School For Students With Special Needs

For Special students overall upgradation of Aanchal school along with civil infra will be done. For students new sports facilities will be introduced. **More professionals will be engaged for overall growth of the students.**

O.3 Digitization & Smart Governance

NDMC will strengthen digital governance through GIS-based asset mapping, 3D modelling of infrastructure, QR-coded sanctioned plan and digital monitoring of civic services enhancing transparency and efficiency.

**P. IMPLEMENTATION OF RASHTRA
BHASHA HINDI IN REGULAR OFFICIAL
WORK**

In order to encourage the use of Rashtra Bhasha Hindi in regular official work, NDMC has organized Hindi Pakhwada–2025, Prize Distribution for use of Hindi on the occasion of Hindi Divas and held Hindi workshops from time to time during the current FY 2025-26. In addition, the quarterly e-magazine “Palika Samachar – Hindi” is published regularly. These initiatives have helped to promote the progressive use of Hindi in official functioning and the practice will be continued in the coming year as well. Now, we are in the process to translate “**Compendium of Instructions**” issued by Finance Department into Hindi language for the convenience of the employees and general public.

Q. Amendment in NDMC Act

Amendment to the NDMC Act 1994 to align with current global best practices to factor our learning experiences over the last three decades, ensuring ease of doing business, reducing regulatory compliance burden and de-criminalization under Jan Vishwas Scheme is in process.

R. Women Empowerment

**R.1 Revamping of Women Technical Institute
(W.T.I.)**

Organizations, NGOs and training institutes were invited to collaborate with Women Technical Institute, Netaji Nagar, New Delhi to make a lasting impact on the lives of aspiring women. We are in process to introduce new courses and remove courses with low employability. Introduction of new courses and

upgradation of existing offerings in line with market demand and national standards is targeted in collaboration with specialized institutions such as NSDC/VLCC in the next FY 2026-27.

R.2 Smart Pink Toilet For Women

NDMC has constructed seven pink toilets for women at (i) Sansad Marg near LIC building, (ii) Super Bazar, (iii) Factory road near Safdarjung Hospital, (iv) Sarojni Nagar Market, (v) Aurbindo Marg, Safdarjung Hospital side, (vi) Inner circle Connaught place opposite B-Block and (vii) Kalawati Hospital. Feasibility to construct few more pink toilets is being explored and the project is likely to be started in the FY 2026-27.

R.3 Working Women Hostel Upgradation

To strengthen facilities supporting working women, NDMC proposes a comprehensive upgradation plan for the Working Women Hostel like Installation of new air-conditioning systems, Upgradation of lifts and modernization of shared amenities, etc in the FY 2026-27.

R.4 Collaboration of NDMC with Delhi police under safe city project

NDMC, in collaboration with Delhi Police is implementing the Safe City Project under the Nirbhaya Fund scheme of the Government of India to enhance the safety and security of women and children in public spaces. The project aims to create a safe, secure and empowering environment by enabling mutual sharing of CCTV camera feeds between NDMC and Delhi Police. The execution of the project has commenced and live feeds from 82 CCTV cameras have already been integrated with Integrated Command and Control Centre (ICCC). We are in process of adding more than

2000 CCTV camera for safety, security and better monitoring on real time basis.

R.5 Other women supportive activities

(i) One day time Secondary School for drop-out girls and women and 16 creches are already functional in the NDMC.

(ii) Dark spots are being identified and illuminated. This is not only important for road safety and convenience but also to ensure that pedestrians especially women feel safe while walking in the New Delhi streets.

(iii) Anesthesia Work Stations and Harmon analyzer are being procured in the PMH.

S. Inclusive NDMC: Support to Weaker Sections

Schemes continue to focus on equitable access to services, education, health and safety for weaker communities. This year we are in process to (i) Enhancement of amount of Benevolent Fund relief for SC/ST employees from Rupees Fifty Thousand to Rupees Seventy Five Thousand. (ii) D-ETP is being installed at Dhobi Ghat for optimum use of water.

T. Comprehensive Municipal Services

T.1 From road maintenance to waste management, we are committed to streamline municipal services. For comprehensive development and resurfacing of roads, we have collaborated with CRRI to leverage their expertise to make NDMC roads more strong and convenient for riders.

T.2 We will continue to keep maintenance of NDMC buildings and other assets rigorously alongwith cost

centric data of each asset.

T.3 For comprehensive comparison of quantity of Electricity and Water purchased and billed or consumed, we are going to strengthen our Boundary meters. This will reduce pilferage and leakage of Electricity and Water.

T.4 Over the past year, NDMC has achieved remarkable national recognition in the field of sanitation. NDMC has been honoured by the Hon'ble President of India as a **“Super Swachh League City”** and successfully secured both the **“Water+ Certification”** and **“5-Star Garbage-Free City Rating”**. These recognitions are not merely awards but testimony to systematic sanitation reforms and dedication of NDMC teams on the ground.

A landmark collaboration was also established with the Municipal Council Palwal under the **“Swachh Shehar Jodi Yojana”** initiated by MOUHA. Through this partnership, NDMC is sharing improved sanitation governance beyond its jurisdiction.

T.5 NDMC takes a pride to have Embassies in its area and is committed to provide best civic services such as providing of electricity, water and keeping the Embassy area green and clean. In addition, we are in process to set up a single window system to address the complaints pertaining to the Embassies.

We are also planning to organize **International Food Festival** with the concept of **“Vasudhaiva Kutumbakam”** to provide global taste and culture at one place.

T.6 Being strengthened and expanded as a flagship

initiative focusing on 100% source segregation, decentralized wet-waste processing through Aerobins, Micro-MRFs, and RRR Centers (Neki ki Deewar) we implemented “**Anupam Colony Zero-Waste Model**”. The model is proposed to be replicated in 15 additional colonies with ongoing Aerobin installations and sustained IEC with community engagement. **We are committed to make NDMC area greenest and cleanest which will be a role model for all other municipalities.**

T.7 We are planning for strengthening of societies affiliated with the NDMC such as NSES, SKS and ABCS. A comprehensive development plan will be take off in the coming FY 2026-27.

T.8 The area of Nauroji nagar and Sarojini Nagar is being re-developed by the NBCC, we are in process to augment the civic facilities in these areas to cater the burgeoning population needs in this area.

T.9 NDMC has continued in its path for maintaining financial stability and providing quality sanitation services. For over a decade NDMC has consistently secured AA+ Credit Rating signifying its robust financial standing.

U. Receipts

NDMC is largely utilizing its own fund to provide world class civic services which makes it “**Atmnirbhar NDMC**” by shouldering in financial load of State and Central Govt. **We are in process to review our advertisement policy to generate more revenue from assets of the NDMC.**

U.1 Receipts From Electricity Distribution

The total revenue receipts from Electricity Distribution

Strategic Business Unit (EDSBU) have been projected in RE 2025-26 at **Rs.1914.25** crore as against actual **Rs.2225.90** crore in the year 2024-25. The projections for BE 2026-27 are at **Rs.1953.42 crore**.

U.2 Receipts From Property Tax

The Property Tax Department of the NDMC is entrusted with the assessment, levy and collection of the property tax and duty on transfer of property. During the year, department has undertaken a few major steps to streamline and ensure ease of doing business for the citizens. We have proposed major schemes which needs infusion of substantial amount into Municipal Fund but we intend to not to pass on this financial burden to our residents, thus, **I propose to not to increase property tax rates for the next FY 2026-27.**

We are expecting to collect Property Tax of **Rs.1200** crore in Revised Estimates 2025-26 and **Rs.1290** crore in BE 2026-27.

U.3 Receipts From Licence Fee From Municipal Properties

The actual receipts in 2024-25 for Licence Fee from Municipal Properties stood at **Rs.757.48** crore. The Projections for RE 2025-26 are at **Rs.850.21** crore and BE 2026-27 are at **Rs.945.21** crore.

Now, I present the Annual Budget 2026-27 with financial projections first:

i. The total receipts of the Budget Estimates 2026-27 are Rs.5953.07 Crore against Rs.5689.27 Crore provided in Revised Estimate 2025-26. The total actual receipts in 2024-25 were Rs.5060.57

Crore.

ii. The BE 2026-27 for the revenue receipts are Rs.5211.92 Crore against Rs.4964.73 Crore provided in RE 2025-26 and actual of Rs.4606.56 Crore in 2024-25.

iii. The BE 2026-27 for capital receipts are Rs.741.15 Crore against Rs.724.54 Crore provided in RE 2025-26 and actual of Rs.454.01 Crore in 2024-25.

iv. The total expenditure for BE 2026-27 are Rs.5810.02 Crore against Rs.5484.15 Crore provided in RE 2025-26 and actual of Rs.4678.45 Crore in 2024-25.

v. The BE for revenue expenditure in 2026-27 are Rs.4866.18 Crore against Rs.4897.61 Crore provided in RE 2025-26 and actual of Rs.4556.72 Crore in 2024-25. The capital expenditure is projected at Rs.943.84 Crore in BE 2026-27 against Rs.586.54 Crore in RE 2025-26 and actual of Rs.121.73 Crore in 2024-25.

A comprehensive Sector wise status of announced schemes, achievements of the NDMC during FY 2025-26 and plans and projections for the FY 2026-27 are placed at Annexure-I for consideration of the Council.

V. In conclusion, the achievements of the current year reflect NDMC's commitment to proactive planning, inter agency coordination and adoption of modern technologies. The proposed initiatives for the coming years reaffirm our resolve to build a resilient, sustainable and environmentally responsible capital

city that delivers high quality services to its citizens. **This year we have gathered micro level data of employees and assets of NDMC for better management and monitoring through modules to be developed very soon. We are moving ahead with holistic and innovative approach and investing in the infrastructure/machinery by keeping in mind population density in the near future.**

I would like to place on record my gratitude for the guidance and support received from Hon'ble Lt. Governor of Delhi, **Hon'ble Chief Minister of Delhi**, Ministry of Home Affairs and Ministry of Housing & Urban Affairs, Government of India.

I would also like to thank Hon'ble Minister, PWD, Water, Irrigation & Food Control, Hon'ble M.P., New Delhi, Hon'ble Vice-Chairman, Hon'ble MLA and members of the Council for their continued support and guidance.

I would also like to place on record the encouragement and feedback from all segments of society and various stakeholders whose love and care for New Delhi keeps us going.

Special thanks to all staff and officers of NDMC for their continuous and relentless services to the cause of making New Delhi a clean, green, reliable, prudent, caring, inclusive, resilient city with high quality infrastructure and an aspirational city for the whole country.

This budget reflects our unwavering dedication to making New Delhi a model city for sustainable urban living. Together, we will create a brighter, greener and more inclusive future.

Thank you very much and a warm wishes for the New
Year -2026.

Jai Hind.

ANNEXURE-I

A comprehensive Sector wise status of schemes announced/achievements of the NDMC during FY 2025-26 and plans and projections for the FY 2026-27

1. FUTURE READY NDMC: SETTING A WORLD CLASS EDUCATION MODEL

The educational landscape is evolving at an unprecedented pace, driven by rapid technological advancement, workforce upskilling needs, and the complex demands of the 21st-century students while keeping the Indian knowledge system as core of learnings. Education department NDMC has taken various novel steps aligned with NEP 2020 to match this pace. One of the most prominent initiative is designing of “**Vikas Bhi, Virasat Bhi**” framework for students focusing on Indian knowledge system, yoga & mantra chanting, learning in natural surroundings, Swatchta and environmental stewardship, launched by Hon’ble Chief Minister, Delhi on 4th September, 2025. 240 NDMC teachers are now better equipped with updated pedagogical skills, Artificial Intelligence(AI) in education, knowledge of IKS and mental health and wellbeing assessment through a curated capacity building programme in collaboration with Shailesh J. Mehta School of Management and IIT Bombay. A teacher’s resource centre has been developed for encouraging ambience and focused better learning. To realize the vision of Viksit Bharat 2047 and make our students future ready, hands-on workshop on artificial Intelligence was conducted in collaboration with Homi lab. NDMC schools have achieved the outstanding CBSE Board Result in 2024-25 with highest pass percentage in the history of NDMC. In Class-10 & 12,

it was 99.44% and 98.46% respectively.

There are 45 NDMC Schools (13 Senior Secondary, 07 Secondary, 1 Middle, 10 Primary and 3 Nursery Schools), and 11 Navyug Schools (7 Senior Secondary, 1 Secondary and 3 Primary Schools). NDMC also has one Special School for specially-able students (Aanchal School) and one day time Secondary School for drop-out girls and women. NDMC also runs 16 creches, and provides grants-in-aid to three primary aided schools.

Now, I would update the status of various improvements measures/schemes announced last year.

1.1 Paradigm Changing Initiatives

NDMC is working to make education inclusive and accessible to all through introduction of technological advancements and engaging the stakeholders. Such initiatives which were introduced by NDMC will continue even in future for welfare and development of students. The students are given platforms for participating in various activities and exhibitions as a part of co-curricular development of the students.

1.2 Improvement in Enrolment

The Education Department is ensuring that there are no dropouts and enrolled students maintain a prescribed threshold limit of attendance. To achieve a Zero Dropout Rate, door-to-door surveys have been conducted across clusters in the NDMC area to identify children not attending schools. A dedicated team of teachers and volunteers will be deployed to run awareness programmes, ensuring that every child has access to education.

1.3 Overall Improvement in Class 10th and 12th Result

NDMC could achieve all time high results in Class 10th & 12th through various technological interventions, effective administration, remedial classes, continuous interaction with parents and students counselling the overall result in Class 10th & 12th of NDMC and Navyug schools was 99.44% and 98.46% respectively in the academic year 2024-25.

1.4 Tinkering Labs

It is a matter of pride that Atal/Palika Tinkering Labs (ATL/PTL) have been established in NDMC schools with resource persons engaged to provide hands-on STEM training to students. The impact of these labs is reflected in notable student achievements at national platforms. The team from Atal Adarsh Vidyalaya, Lodhi Road has been selected among the Top 30 teams nationwide in Phase-I of the “Solve for Society – 2025 Innovation Challenge” by The Innovation Story and Amazon Future Engineer. Further, students from NDMC/ NSES schools have showcased Helping Robots and Fire Fighting Robots, developed in their school ATLs, at the Amazon Sambhav Summit – “Naye India ki Nayi Raftar” These achievements highlight the effectiveness of ATL/PTL initiatives, which will continue in FY 2026-27.

1.5 Palika Pratibha Puraskar

The scheme of Cash Prize to Meritorious Students (Palika Pratibha Puraskar) has been implemented. This has instilled competitiveness among the students for doing better in board exams. Further, to integrate the same with the concept of Fit India and promote cycling in the city, cycling clubs have been set up in 8 schools comprising of 3 Navyug Schools and 5 AABVs. The

scheme will also continue in the FY 2026-27.

1.6 Improvement in Schools-Smart Classes

To convert all primary classes from class 1 to 5 into smart classes, the work is in progress. This will provide a new dimension to learning through technological tools in NDMC Primary schools. The Smart School is integration between technology and education, aiming to improve the quality of education and increase the effectiveness of the learning process. It involves the use of visual and audio means. For setting up of IFP based 346 smart classes in primary classes of all 43 NDMC/Navyug schools will be completed by current FY 2025-26. MIS has been launched to capture and track student data.

1.7 Nature Based Class Room

The work for development of Nature based Class room has been completed in ten schools and are being used as a part of “**Vikas bhi Virasat bhi**” framework.

1.8 Adventure Activities

An adventure trekking trip to the Gangotri Base Camp, for 100 students and 6 science teachers was successfully conducted. Similar, activities are proposed to be organized in the nearby locations in the FY 2026-2027.

1.9 Science Fair

To ensure maximum participation of students and to promote scientific temperament, this year the Science Fair was successfully conducted cluster wise and best exhibits have been awarded. For the next year all efforts will be made to promote more collaboration in science and brings them to Science fair through our student's hands on learnings.

1.10 Up-gradation of Computer Labs

NDMC is in process to upgrade the existing Computer Labs in to well-designed computer lab with latest computer hardware, software required for senior classes as per CBSE curriculum, networking, fiber based internet connectivity. The tender for up-gradation of Computer Labs in NDMC/Navyug Schools is in process and the work is targeted to be carried out in this FY 2025-26.

1.11 Science Parks

An MOU has been signed with National Science Centre (NSC) for setting up of Science Parks at science & humanity center, Tuglak Crescent. All 16 exhibits have been placed. Civil, electrical and horticulture works are expected to be completed by 15 January 2026, with the overall project slated for completion by March 2026. Furthermore, it will be expanded as learning center “The Bharat Antariksh Station” to provide an immersive experience and learnings of science & space” in NDMC area.

1.12 National Education Policy (NEP) 2020

In pursuance of the National Education Policy (NEP)-2020 announced by the Government of India, NDMC has undertaken several initiatives to align its school education system with the policy objectives. These include organizing capacity-building workshops for teachers, introducing Bagless Days, establishing activity rooms in NDMC schools, and maintaining an appropriate teacher-student ratio. Further, many more initiatives are in process including the setting up of Innovation Labs with cutting-edge technology integration and virtualization to strengthen experiential and digital learning in NDMC schools which is likely to be completed by March 2026.

1.13 Teachers Resource Centre

Considering the need to impart professional training and upskilling of head of Schools and teachers with the latest trends in education to achieve the vision and mission of the National Education Policy, I had proposed to develop a ‘**Teachers Resource Centre**’ in NDMC for Continuous Professional Development of teachers. The work has completed and operational for imparting professional training to teachers. A discussion room with digital and conventional learning resources will be developed in the FY 2026-27 for holistic professional approach.

1.14 Sports Coaching

To strengthen sports education and promote excellence among students, NDMC has engaged 14 coaches across 10 sports disciplines, namely Cricket, Hockey, Football, Volleyball, Basketball, Badminton, Table Tennis, Lawn Tennis, Wrestling, and Boxing. This initiative has ensured continuity and improvement in sports coaching programs across NDMC schools. NDMC is in process of engaging the professional sports academies under Public-Private Partnership (PPP) model to impart quality training to NDMC students. It will be finalized in the current FY 2025-26.

1.15 Regular Study Tour and Excursions

This year a different approach has been adopted for enhanced learning outcomes, dedicated excursion plan has been designed for every class which is mapped with ongoing class curriculum. Different students have different field of interest and propensity to excel in different areas/subjects. Under this scheme students have visited PM Museum, Police Memorial, War Memorial, Amrit Udyan, Rail Museum, Children’s Park, and other educational and historical places

situated in Delhi. This year we will expand the reach by Organizing (i) inter-state excursions to institutions like IITs, IIMs, and national heritage sites; collaborating with universities and research centers for subject-specific learning experiences (ii) Skill-Based excursions by introducing workshops and industry visits for hands-on learning (e.g., start-ups, tech parks, art studios) and as a part of scheme 20 meritorious students visited ISRO, Hyderabad. This scheme will also be continued in the next FY 2026-27 with more students getting the exposure.

1.16 Up-gradation of School Libraries

In order to match with the digital environment, we are consistently strengthening the digital learning infrastructure. Twenty-seven libraries of NDMC and Navyug schools have already been upgraded and remaining three digital libraries have been targeted for completion by March, 2026, Books are also being procured in all school libraries to further enhance the library resources.

1.17 Career Counseling

The majority of students of the NDMC schools are from middle and lower economic strata wherein the parents are not in a position to offer adequate career advice to their children. In collaboration with “I Dream” foundation based on Psychometric Assessment and providing helpline services by Counsellors for managing the stress and anxiety of examination for shaping the future of the 12,000 NDMC School children from classes 6 to 12 were organised to nurture scientific temperament, artistic skills, peer learning, sustainability and co-curriculars with reputed organisation like National Science Centre, National Gallery of modern Art, Sahitya Kala academy, creation

of learning hubs with private schools, World Wide Fund.

Now, the next phase of our work is dedicated to long-term strategic plans, collaborations and pioneering projects that will future-proof our primary students, making future ready students through learning of AI, entrepreneurship, upskilling teacher and upgrading infrastructure facilities etc. We will elevate academic standards by adopting key global best practices, ensuring a shift from rote memorization to competency-based, holistic learning. This transformation requires a strategic focus on pedagogy, teacher quality, and technology.

1.18 Activity Rooms

To meet the requirement projected under NEP-2020, modal activity room has already been created at AAPV R.K. Ashram Marg. For creation of additional 159 activity rooms for activity base learning of students in 3-6 age group, in the first phase NDMC has initiated setting up of 42 Activity Rooms out of which 21 are in Primary/Secondary Schools for the Foundational Stage and 21 are in Senior Secondary Schools for the Preparatory Stage, covering both AAV and Navyug Schools. These Activity Rooms are likely to be operational in the next FY 2026-27.

1.19 New Look Uniform

NDMC has entered into collaboration with National Institute of Fashion Technology (NIFT) to re-design the school uniforms of AAVs and Navyug Schools. Students of our schools having knack for fashion technology shall assist the designers of NIFT. The new uniform design for Atal Adarsh Vidyalaya schools has already been finalized and implemented, and NIFT has

been requested to develop new uniform designs for Navyug Schools. The scheme is likely to be fully implemented in next FY 2026-27.

1.20 Complete Health Check Up and Maintaining Health Record

The annual health check-up covering basic parameters and general health assessment has been completed for primary students (Classes I to V) in all NDMC schools, including height, weight, dental health, eyesight, vaccination, and issuance of health cards. In addition, TD vaccinations have been administered to Class X students across all NDMC schools. The health check-up for students of Classes VI to VIII is scheduled to be completed by March 2026.

1.21 Revamping of Women Technical Institute (W.T.I.)

Organizations, NGOs and training institutes were invited to collaborate with Women Technical Institute, Netaji Nagar, New Delhi to make a lasting impact on the lives of aspiring women. 4 NGOs have given presentation for introduction of new courses and removal of courses with low employability which are currently under analysis and proposed to be taken up in FY 2026–27. The VLCC team has also visited WTI and suggested advanced beautification courses. Introduction of new courses and upgradation of existing offerings in line with market demand and national standards is targeted in collaboration with specialized institutions such as NSDC in the next FY 2026-27.

1.22 Comprehensive Upgradation of School Infrastructure

We intend to take up a comprehensive review of our

schools' infrastructure and pedagogy to explore possibilities for focused attention and student centric specializations like art & culture, music, sports etc. so as to make them schools of new India.

Recognizing that robust infrastructure is fundamental to student health, safety, engagement, and academic performance, NDMC has created a dedicated Civil Engineering wing within the Education Department to ensure faster execution of civil works. Comprehensive infrastructure upgradation is being undertaken to create modern, engaging, and healthy learning environment, including the development of Navyug Pandara Park and Navyug Sarojini Nagar Schools as model schools. Basic infrastructure improvements will be carried out across all schools, covering main gates, toilet blocks, laboratories, auditoriums, waterproofing, tiling, installation of CCTV systems, upgradation of grounds and gardens, provision of new aesthetic furniture, and outdoor play equipment. Classrooms will be enhanced with modern ambience through engaging wall designs, flexible and activity-oriented furniture, and library corners with complementary aesthetics in each class, while play areas will be upgraded to support motor skills and physical growth. The upgradation works are being executed in-house by the Architecture & Engineering Department, and the proposal for Sarojini Nagar School is currently under preparation, and likely to be completed in the FY 2026-27.

1.23 Model School for Education – Navyug School, Pandara Road

Comprehensive upgradation of school infrastructure at Navyug School, Pandara Road to convert into Model School for education had been taken up. The aim is to upgrade the School in to world class center for

education. A consultant has been appointed to suggest upgradations on the basis in line with global best practices.

1.24 Introduction of Vocational Subject

The department has implemented skill-based education by introducing Retail (in one school, i.e., AAV, Moti Bagh) and Information Technology (IT) as optional subjects for IX and X Classes in all NDMC schools. These subjects aim to equip students with practical and career-oriented skills. Two vocational courses IT and Retail sales in two schools have already been introduced. Additionally, more courses like Artificial Intelligence, Financial Literacy, Beauty and wellness have been shortlisted for introduction in more schools.

These initiatives will continue in the academic sessions 2026-27 reflecting NDMC's commitment to offering diverse educational pathways and enhancing students' career readiness through skill-based learning.

Now, I would like to propose the following schemes for the financial year 2026-27.

1.25 Holistic Upgradation of The Primary Education In NDMC – Mission Utkarsh – Overall Upliftment.

1.25.1 Foundational Literacy and Numeracy (FLN)

NDMC will be taking multifaceted approach covering foundational learning and numeracy (FLN), This is the single most critical initiative for primary education, focuses on ensuring every child achieves a minimum level of reading, writing, and arithmetic comprehension by Grade 3. To achieve this goal in collaboration with significant organizations (i) constant upskilling of

teachers along with other significant actions (ii) various reading and writing missions and assessment reforms (iii) for individual attention on every student , concept of primary and Asstt primary teacher will be introduced.

1.25.2 Nutrition

A healthy diet for primary students is the foundation for both physical growth and optimal cognitive function (learning). It is essential to supplement the mid-day meal diet with rich in Omega 3 Acids, protein and other essential nutrients which are necessary for growth, vital for memory, focus, attention span, and overall cognitive function.

1.25.3 Focus on Co-Curricular Activities

Co-Curricular Activities like dance, music, theatre, and social responsibility clubs in primary level through various collaborations.

1.26 Empowering Teachers

Academic success hinges on effective teaching. NDMC will invest in rigorous and continuous Professional Development (PD) through Leadership program for HOS and HMs through IIMs/ IITs, International exposure, CBSE NCERT/SCERT etc. training along with counsellors in every school.

1.27 Application-Based Curriculum

The curriculum emphasizing on the application of knowledge through experiential learning, latest technology and concepts to real-world problems. “AI for ALL” -Training students of class 7th to 11th in artificial intelligence, addition of vocational subjects like Entrepreneurship models in schools.

1.28 Single Sign on App

Single sign on app for education department with student, teachers and parent portal for attendance, performance tracking, Curriculum contents, worksheets, registration etc.

1.29 Experiential Technology Integration

For developing students as future ready critical thinkers STEAM labs, AI & robotic labs, AR VR labs to be setup in NDMC schools.

1.30 Upgradation of Students with Special Needs

For Special students overall upgradation of Anchal School comprising of civil infra and new sports facility will be taken up in the next FY 2026-27.

In the coming year, NDMC propose to spend a sum of **Rs. 245.93** crore towards Education Sector, out of which **Rs. 16.99** crore is for capital work and **Rs. 228.94** crore towards Revenue Expenditure.

2. RELIABLE NDMC: DISCOM OPERATIONS

Energy is the prime mover of economic growth and is vital to the sustenance of a modern economy. Sustainable developments require long term availability of energy from sources that are affordable, accessible and environment friendly.

NDMC is the deemed licensee for the distribution of electricity in its area and provides a 24x7 reliable quality power supply to all its consumers. The objective of NDMC is to emerge as a reliable and responsible DISCOM to its consumers and as an efficient, self-reliant and capable strategic business unit within NDMC. From the FY 2020-21, we are presenting

separately the budget for this EDSBU (Electricity Distribution Strategic Business Unit) clearly indicating our results as a separate cost unit. The same approach has been continued this year.

Now, I would update the status of various schemes announced in earlier years.

2.1 Ensuring Energy Efficiency: Electric Vehicles & Public e- Charging Stations

2.1.1 Electric Vehicle (EV) Infrastructure: As part of its sustainability goals, the NDMC plans to expand the electric vehicle (EV) infrastructure by setting up more EV charging stations across the city, especially in key public areas and transport hubs. More than 100 EV charging stations have already been installed. The work for installation of additional EV charging stations has been awarded to three firms (HITES, KELTRON, and REIL) and based on feasibility assessments additional 100 EV charging stations are targeted to be installed in the coming FY 2026–27.

2.1.2 Providing Electric Connection to J.J. Cluster in Left-Out Jhuggies

The work has already commenced. In Package–I, procurement of USS is completed, and in Package–II, CITC of USS 11 KV panels and octagonal poles work has been completed. The remaining work is expected to be completed in the current FY 2025-26.

2.2 National Solar Mission

TERI has conducted study for Potential installation of Roof Top Solar in NDMC Area. A total of 244 NDMC Buildings & 124 Non NDMC Locations have been

identified for installation of 6.9MW & 8.2 MW respectively. NDMC is in the process of signing an MoU with SECI for implementation of the same on NDMC Buildings.

2.3 Replacement of Old/Obsolete HT Panels Under RDSS Scheme

By replacing the Old/Obsolete HT panels we will not only increase the reliability of the power supply but the distribution losses will also be reduced enabling NDMC to provide uninterrupted power supply to its consumers. The work is likely to be started in current FY 2025-26.

2.4 Energy Audit and Condition Assessment of Electrical Assets

The energy audit will help to reduce carbon footprints as it will pinpoint areas of intervention where energy is being wasted. This will help in reducing the cost of NDMC as well as consumers. The Energy Audit work report shall be sent to BEE in the current FY 2025-26.

2.5 Prepaid Billing

In the last year a new electricity water billing software of SAP was introduced by the NDMC. The feasibility of provisions of prepaid billings for all electricity consumers is being explored and likely to take off in the next FY 2026-27.

2.6 CCTV Cameras:

In order to improve safety and security CCTV cameras have already been installed in most of the schools, hospitals and markets etc. Based on a vulnerability study, NDMC has installed specific purpose CCTV cameras to monitor the flooding points during the rainy season. Additional 2000 CCTV cameras are likely to be

installed in the FY 2026-27.

2.7 Street Lighting Improvements

NDMC has reviewed afresh the vulnerable points where the street lighting needs to be improved. This is not only important for road safety and convenience but also to ensure that pedestrians especially women feel safe while walking in the New Delhi streets. Extensive exercise is being carried out to make NDMC area Dark Spot free in the next FY 2026-27.

2.8 Revamp Distribution Sector Scheme (RDSS)

In order to revamp electricity distribution network, NDMC has been selected for Revamp Distribution Sectors Scheme (RDSS) of Ministry of Power (GOI) and has secured technical guidance and funding support for projects worth Rs.332 crores. The scheme comprises four components: Component-I (PMA appointed), Component-II (distribution infrastructure strengthening at awarding stage), Component-III (SCADA/DMS implementation at awarding stage), and Component-IV (AMISP at awarding stage). All these schemes are expected to be completed in the next FY 2026-27.

2.9 Replacement/ Modernization of Escalators at Three Sites

Modernizing escalators not only enhance movement of the visitors but also reduce cost of maintenance. Work is in progress and likely to be completed in the current FY 2025-26. Further, 22 Escalators at Connaught Place will be revamped & made functional in the next FY 2026-27.

2.10 Establishing Packaged Electric Sub-Station

To provide reliable electric supply, it was proposed to

establish a packaged Electric Sub-Station near Skill Development Centre and Bapu Samaj Sewa Kendra. The work is likely to be awarded in this year in r/o Skill Development Centre and will be completed in next FY 2026-27.

2.11 Power Transformers with Advance Technology

03 Nos. 33/11 KV Power Transformers, which have served its useful life are proposed to be replaced with advanced Power Transformers so as to ensure reliable and uninterrupted electric supply to the residents of NDMC area. Tender for procurement of 03 Nos. of Power Transformers is in process and likely to be completed in the current FY 2025-26.

2.12 Establishment of 33/11 KV Electric Sub-Stations at Sarojini Nagar

NBCC is constructing GPRA colony in Sarojini Nagar. To provide Electric supply to this colony and other residents of Sarojini Nagar, it is proposed to establish 04 Nos. 33KV Electric Sub-Stations and 02 Nos. ESS Sub Station at Netaji Nagar. The work is likely to be completed during the FY 2026-27.

2.13 Upgradation of Capacitor Banks having Automatic Power Factor Correction (APFC)

In order to improve the voltage profile, reduce reactive energy consumption and availability of quality power to the residents of NDMC area, the project for providing Capacitor Bank at 05 Nos. ESS is in tendering stage. The work is likely to be awarded in the current FY 2025-26.

2.14 Replacement of 66KV Switch Gears at ESS School Lane and ESS Vidyut Bhawan

66 KV Switch Gears at ESS School Lane and ESS Vidyut Bhawan have served their useful life. **66 kV Switchgears** at ESS School Lane and ESS Vidyut Bhawan will be replaced with advanced technology in the next FY 2026–27.

Further, I would like to propose the following works for strengthening the capacity and efficiency of electricity supply in the FY 2026-27.

2.15 Load Flow Study Using State of the Art Software

NDMC proposes to procure advanced load flow software to create a digital twin, conduct planning studies, improve reliability, optimize investments and support solar & EV integration.

2.16 Nitrogen Injection Fire Prevention System for Power Transformers. (NIFPS)

NIFPS installation is planned for 14 transformers (66 KV) in phase 1 and 44 transformers (33 KV) in phase 2 in FY 2026–27, with a budget of Rs. 20 lakh per system.

2.17 Active Filter for improvement of Power Quality

Active filters for power quality are proposed to suppress harmonics, improve power quality, enhance transformer life, reduce noise and ensure grid stability.

2.18 Procurement of OFC embedded 33KV Power Cables

As of now, NDMC has been using separate Optical Fiber Cables (OFC) for network of Power grid to communicate between Electric Sub-stations and connect line differential relays. Procurement of 33 kV cables with embedded OFC will create a dedicated

communication network, reduce costs and minimize road restoration works. These cables are used in CPWD projects at Central Vista and NBCC colonies.

2.19 Replacement of LT Panels

Tender processed for 36 outdated LT panels. New LT panels will improve reliability, reduce breakdowns, enhance service, and improve AT&C loss and SAIFI/SAIDI.

2.20 Vacuum Based OLTC in Power Transformers.

NDMC proposes procurement of vacuum-based OLTC transformers to avoid fire risks, reduce damage, and ensure reliable quality power.

2.21 Maintenance free Transformers Air Breather

Replacement of silica gel-based air breathers with maintenance-free air breathers will reduce maintenance, minimize fire risks, and ensure reliable power supply.

In the year 2026-27, I propose to allocate **Rs.1966.80 crore** for Electricity Department out of which **Rs. 360.07** crore is towards capital expenditure and **Rs. 1606.73** crore towards revenue expenditure.

3 RELIABLE NDMC: ROADS AND BYE-LANES

3.1 Roads and connecting lanes are the basic infrastructure needed by the cities for necessary mobility. Roads are the lifelines of any city. They enable seem-less transportation of goods, services and people, reducing transportation costs and improving efficiency. Good quality roads improve tourism businesses and trade by managing traffic rules, reducing congestion and enhancing urban mobility.

Road safety, signages and marking are an important and integral part of any urban infrastructure. NDMC has created quality road infrastructure and stands committed to keep them well maintained.

I have pleasure to intimate the projects announced earlier along with plan for the next FY 2026-27.

3.1.1 Mechanized Cleaning system

NDMC is switching over from conventional cleaning system to advanced mechanized cleaning system. Mechanized Housekeeping and cleaning of identified areas including covered spaces in Hanuman Mandir is being carried out. For Connaught Place, finalization of tender on BOT basis is in process and the work is likely to be started in the FY 2026-27.

3.1.2 Happiness Area and Recreation Center

Under smart city programme NDMC had developed few Happiness Areas which were appreciated by the citizens. In the coming year we intend to take the concept to a new level by including more areas in roads, markets, parks etc. and equipping them with plug and play facilities. The work for development of Happiness Areas in the Park near Satya Sadan in-front of Railway Quarters and equipping them with Plug and play facilities, and Development of Bal Vatika/Children Park in D-I & D-II area, Madhulimay Marg, Chanakya Puri, by installation of Open gym, kids play area, Relaxation and seating area, Pathway etc are initiated and likely to be completed in the next FY 2026-27.

3.2 Modular Rainwater Harvesting

The work for construction of Modular Rainwater Harvesting (RWH) pits is in progress. Out of 95 units,

34 have been completed and work on 4 units is currently underway. Overall, about 45% of the work has been completed in the current FY 2025–26, and the remaining work is proposed to be completed in the next FY 2026–27.

3.3 Synthetic Track in NDMC Parks and Open Gyms

For comfortable experience especially to elders and also eliminate the problem of dust and pollution. Based on the positive response received with regard to Nehru Park jogging track, two works, namely, (i) Construction of Red Bajri Path along with sprinkler system in Lodi Garden and (ii) providing and laying EPDM flooring on red stone footpath for jogging track in Sanjay Lake, Laxmi Bai Nagar New Delhi are under progress and will be completed in the current FY 2025–26.

3.4 Public Art and Culture

Based on the positive public response to art and cultural promotion initiatives, NDMC has constituted a high-level Selection and Advisory Committee to oversee future art and cultural activities in the NDMC area. NDMC has already conducted several successful programmes, including Music in the Park concerts in association with SPIC MACAY and a 10 km Live Canvas Painting Programme at Kartavya Path, which saw participation of over 35,000 people. For sculpture installations, eight artists have been shortlisted for submission of concepts and budgets.

Further, it is proposed to undertake a comprehensive range of art and cultural programmes during FY 2026–27:-

A corporate film highlighting NDMC's achievements and activities is under progress and will be showcased on various occasions. The process of empanelment of a social media agency is also underway to ensure targeted and effective outreach across digital platforms.

Accordingly, I propose to organize following Cultural program encompassing classical and folk music and dance, theatre, cinema, art exhibitions, workshops by National Awardees, and community festivals celebrating India's cultural heritage during next calendar year:-

- Patriotic Kavi Sammelan at Central Park, Connaught Place.
- Branding of 33 ancient heritage trees with QR-enabled plaques and an online portal.
- Music in the Park classical concerts at Nehru Park in association with SPIC MACAY.
- Regional Classic Cinema Screenings with Eminent Filmmakers.
- Art Flea Market at Lodhi Art District.
- Community theatre and short play competition at Talkatora Indoor Stadium.
- **Regional Language** Kavi Sammelan.
- Mango Festival at PSOI Club.
- Teej Festival at NDMC Convention Centre.
- Tiranga Yatra at Inner Circle, Connaught Place.
- Bhakti Naad Spiritual Music Festival.
- Children's theatre, storytelling sessions, puppet shows, folk craft workshops, and classical dance and music festivals at prominent NDMC locations.

These initiatives aim to strengthen cultural engagement, promote heritage, and enhance community participation across the NDMC area.

3.5 Smart Commuting: Cycle in City

After the successful completion of the cycle track around Nehru Park and the positive appreciation received from citizens, NDMC is motivated to further expand the cycle track network and has identified additional corridors. Accordingly, the following works are proposed to be taken up in FY 2026–27:-

- (i) Construction of a cycle track from New Moti Bagh to Sunehri Bagh Roundabout.
- (ii) Development of cycle tracks along major roads from New Moti Bagh to Connaught Place (Phase-II).

3.5.1 Theme Based Parks

Globally, there is a growing trend towards development of theme-based parks that combine recreation with knowledge dissemination and promote awareness and sensitivity among citizens on selected themes. In line with this approach and to connect with India's rich heritage, NDMC has taken up the development of theme-based areas focusing on Vedic culture, Navagrahas, **Sculpture** and Nakshatras. The work is proposed to be commenced in FY 2026–27 and the drawings work is under preparation.

3.6 Foot Over Bridge

For convenience and safety of pedestrians, construction of a foot over bridge at AIIMS gate No.1 Aurobindo Marg and at Delhi High Court near gate No.5, Shershah Road is being taken up. For Delhi High Court Gate No. 5, Sher Shah Road the work has been awarded to DMRC and the MoU is under finalization. For AIIMS Gate No. 1, Aurobindo Marg modality for execution of

work is being finalized. Both projects are expected to be completed in FY 2026–27.

3.7 Resurfacing of Roads

NDMC has made its roads a benchmark in the city with their high quality of construction and regular maintenance. NDMC has entered into MoU with CRRI for enhanced quality of construction. Based on recommendation of CRRI, Five comprehensive projects for resurfacing of roads are at tendering stage and will be completed by current FY 2025-26.

Additionally, the resurfacing of 79 avenue and colony roads, following CRRI recommendations and incorporating preventive layer measures, is expected to be completed by next FY 2026-27.

3.8 Road Safety Devices

In order to prevent road accident, road safety devices such as flexible markers, retro reflective stud, markers, etc. have been provided by the NDMC. Further, Solar stud and type XI retro reflective sheets are also being provided at the vulnerable corners, roundabouts and islands for the safety of traffic. The works of supplying and fixing of solar raised pavement marker (Solar stud) at major avenue road in NDMC area will be completed in the current FY 2025-26.

3.9 Creation of Additional Capacity of Tulip Propagation Chambers

NDMC had created a cold storage facility for preserving tulip bulbs and also created chamber for propagation as a pilot project. Results of this pilot project are being analyzed comprehensively. For creation of additional capacity of tulip propagation chamber the work of development /Fabrication of

growth/propagation chamber unit for bulbous and allied crops storage at Lodhi Garden has commenced and is expected to be completed in the current FY 2025-26.

3.10 Beautification of Parks & Green Belts

Fountains have been installed at different location in NDMC Parks/roundabout to beautify the area during G-20 Summit. Based on positive response from the residents/visitors Landscape advisors are being consulted and the project likely to be take off during next FY 2026-27.

3.11 Construction of International Standard Public Toilet at Khan Market and Sarojini Nagar Market

For convenience of visitors at Khan Market and Sarojini Nagar Market, project for construction of international standard PTU at Khan Market and Sarojini Nagar Market and renovation PTU in the middle lane of Khan Market are completed. **The construction/ redevelopment of International standard PTU in other important areas will be taken up in the next FY 2026-27. Simultaneously the PTU of low foot fall will be reallocated/closed.**

3.12 Night Cleaning Drive in NDMC Area

With the motto of minimum disruption with maximum service, night sweeping program has already been initiated at Khan Market as a pilot project. To extend night sweeping in other areas. NDMC is undertaking the purchase of washing and cleaning machines for road upkeep including water tanks, scrubbers and sweepers. This procurement is expected to be completed in the current FY 2025–26. In addition, wet cleaning through pressure jet machines will also be

carried out in markets.

3.13 The C&D Waste Management

Transportation and scientific processing such as recycling and re-use is being carried out in NDMC area so that 100% malba (C&D waste) of NDMC be processed. The project is in tendering stage and likely to be started by March 2025.

C&D waste management through transportation and scientific processing, recycling and reuse is being carried out in the NDMC area to ensure 100% processing of malba. The RFP for C&D waste and MSW is at tendering stage and the management of MSW waste and C&D waste through concessionaire will be operational in the next FY 26-27.

3.14 Procurement of additional Mechanized Road Sweepers

Mechanical Road Sweepers have been utilized to keep the roads clean in an effective manner. NDMC proposes to make its operation and maintenance more effective by acquiring additional mechanical road sweeper. In order to cover more roads of NDMC area for extensive sweeping and cleaning the work for procurement of 05 nos. MRS on CNG Chassis for sweeping has been awarded and likely to be operational by March 2026.

Further, for upkeep of existing fleet of MRS which covers major road of NDMC area, the work for O&M of existing Mechanical Road Sweeper has been awarded.

The procurement of Small CNG/electric operated MRS for cleaning of bye lanes is in process and are likely to

be procured in the next FY 2026-27.

3.15 Clock Tower

Clock Tower is being installed at junction of Shankar Road & Mandir Marg in consultation with DUAC. The work is likely to be completed in the current FY 2025-26.

In the year 2026-27, I propose to allocate **Rs. 228.87** crore for Road Department out of which **Rs. 98.77** crore is towards capital expenditure and **Rs.130.1** crore towards revenue expenditure.

4 RELIABLE NDMC: WATER SUPPLY

NDMC has been continuously providing reliable water supply to all its residents in NDMC area and also providing advance infrastructure and innovative technology etc. 24X7 Supply of Clean Water With AMI Water Meter.

NDMC citizens need to be assured of round the clock water supply and to guarantee the same, there are total 18,366 connections (Commercial 3509, Domestic 11846 and others 3011 connections) where NDMC is providing water supply.

(i) 24x7 Water Supply

NDMC has undertaken several key initiatives to strengthen and modernize the water supply system across its area. A pilot project for providing 24x7 water supply in the Vinay Marg area, covering one DMA of approximately 850 households is in progress. The work is likely to be completed by 2026-27.

(ii) Future Ready Water Supply

To ensure long-term sustainability NDMC is also appointing a consultant for a holistic study of the entire water supply network to prepare a Master Plan for the next 25 years. This phased program will include hydraulic modeling, condition assessment and creation of DMAs. The consultant is expected to be appointed by March 2026 and the project is likely to be take off during the next FY 2026-27.

(iii) Advance Metering Infrastructure

Further, NDMC is implementing replacement of old mechanical multi-jet water meters with AMI-based smart water meters across the NDMC area covering 20,712 consumer connections so as to ensure accurate billing and reduction of Non-Revenue Water. The tender is expected to be awarded in current FY 2025-26.

(iv) Replacement of Old CI with DI Pipelines

Replacement work of old CI pipelines with DI pipelines for a length of 1320 m in Maharishi Raman Marg area & 3200 m in Golf Links area will be completed in the current FY 2025-26. In addition to this, the replacement work of 6,500 meters in the Pandara Road area and 8400 m in Kaka Nagar area will be started in the next FY 2026-27.

(v) Smart Water Supply Control Room

NDMC also proposes construction of a new Water Supply Control Room at the newly allotted plot at old R.K. Ashram Marg. The tender will be called in the current financial year and the work is scheduled for completion by next FY 2026-27.

4.1 Augmentation of Storage Capacity

To maintain consistency of potable water for the residents of NDMC area during emergency situation and short supply from DJB, we have planned to augment storage capacity of potable water in NDMC area.

4.2 To ensure availability of potable water in every corner of the NDMC area including J.J. Cluster, procurement of twelve additional water tanker of 9 KL capacity with GPRS enable device is at tendering stage and likely to be procured in the next FY 2026-27.

In the year 2026-27, I propose to allocate **Rs.230.28** crore for Water Supply Department out of which **Rs.40.63** crore is towards capital expenditure and **Rs.179.65** crore towards revenue expenditure.

5. RELIABLE NDMC: SEWERAGE SYSTEM

5.1 NDMC has taken up phased rehabilitation of sewer lines based on a detailed consultancy. The first phase of rehabilitation of about 10 Km sewer line has already been completed. The work of 4 Km under Phase-II is also completed.

Now, I would update the status of the various works of rehabilitation of sewerage network announced earlier.

5.2 Funding under UDF for Sewer Line Rehabilitation

NDMC is maintaining about 350 km of sewer lines of sizes ranging from 350 mm to 2100 mm dia. Most of the lines are more than 70 yrs old and need augmentation and replacement. Earlier, NDMC had requested DDA/MoHUA to consider sewer

rehabilitation projects worth Rs 556 Cr. under Urban Development Fund (UDF) which includes rehabilitation of 17 major lines over a period of next 5 years.

The proposal was presented to the Project Sanctioning Committee of DDA on 19th July 2024. As per the committee's decision, the proposal for hydraulic analysis and the detailed plan have already been processed and the project is likely to be started in the next FY 2026-27.

5.3 Rehabilitation of twin barrel 2100 mm dia sewer from C-Hexagon to Lodhi Road is at tendering stage in two parts. The work is likely to be started in the current FY 2025-26.

5.4 The work De-silting and re-habilitation of 450 mm dia NP-2 Class RCC pipe sewer line from Sardar Patel Marg to Shantipath are at tendering stage and the work is likely to be started in the current FY 2025-26.

5.5 For Re-habilitation of existing 600 mm dia RCC sewer from Telegraph lane to Kasturba Gandhi Marg via Madhav Rao Scindia Marg tenders are invited and the work will be completed in the next FY 2026-27.

5.6 In the coming years the NDMC has proposed to install ETP/STPs in all Parks and Garden of NDMC and detailed plan in this regard has been finalized. At present, 11 D-STPs and 01 TTP with a total capacity of 2700 KLD are functional at various locations and are being utilized for horticulture irrigation. Further, a proposal for construction, operation and maintenance of 05 D-STPs of total capacity 2250 KLD for a period of 12 years under PPP mode is at an advanced stage for

approval and is likely to be commissioned during next FY 2026-27. Additionally, sewer flow measurements have been carried out at various locations, and NDMC is exploring the feasibility of proposing 08 more D-STPs at locations for meeting the requisite criteria. Beside this, 01 No. 50 KLD STP at Bharti Nagar for production of Hydrogen is also proposed.

5.7 Proposal for construction, operation and maintenance of 05 ETPs at various Dhobi Ghats in the NDMC area, with a total capacity of 180 KLD for a period of 05 years under Hybrid Annuity Mode, is at an advanced stage of approval. Irrigation of the surrounding areas of each Dhobi Ghat shall be covered through the treated effluent from these ETPs during the next FY 2026-27.

I further propose to take up the following projects during FY 2025-26 and FY 2026-27.

5.8 Rehabilitation of sewer line from Akansha Working Women Hostel to Copernicus Marg via Jyoti Rao Phule Marg is in progress and targeted to be completed in the next FY 2026-27.

5.9 Desilting & Rehabilitation Construction of existing 1100–1200 mm dia sewer line along Ashoka Road from Nirwahan Sadan to C-Hexagon the work is at tendering stage and the work is likely to be started in the current FY 2025-26.

5.10 In order to prohibiting manual scavenging/ sewer cleaning advanced machines are proposed for preventive maintenance/de-silting of sewer lines ranging from 150 mm to 2100 mm dia and for day-to-day maintenance. The proposal includes hiring of 05

pressure jetting-cum-sewer suction machines for a period of 07 years (02 Nos. of 28-tonne with water recycling technology, 02 Nos. of 06-tonne, and 01 No. of 02-tonne). The proposal is under tendering stage and operation of machines is likely to commence in the next FY 2026-27.

5.11 Further, for development of GPRA colonies at Sarojini Nagar and Netaji Nagar by NBCC, shifting of sewer lines is proposed as deposit work. This includes shifting of a 450 mm dia sewer line from Africa Avenue Road, Netaji Nagar to 3rd Cross Road at Rajmata Scindia Marg, Sarojini Nagar and a 450 mm dia sewer line at Netaji Nagar, for a total length of 1045 meters. The proposal is under tender stage and the work likely to be completed in the current FY 2025-26.

5.12 A proposal has been formulated for diversion of sewer lines outside the Embassy area using trenchless technology considering the diplomatic sensitivity and non-maintenance of existing sewer lines passing through the Qatar Embassy. The project comprises laying of 700 m of 400 mm dia sewer line scheduled to be completed in the next FY 2026-27.

5.13 Rehabilitation of 66" dia old brick barrel from Q-Point, Shahjahan Road to Lodhi Road via Subramanian Bharti Marg–Maharishi Raman Marg–Bharti Nagar, which includes rehabilitation work of a 1676 mm dia sewer line with an approximate pipe length of 1511 m. is likely to be completed in the next FY 2026-27.

5.14 Rehabilitation of 737 mm dia sewer line at the junction of Todarmal Road and Barakhamba Road via Mandi House Circle–Copernicus Marg to India Gate, which includes rehabilitation work of a 737 mm dia

sewer line with an approximate pipe length of 1117 m. is likely to be completed in the next FY 2026-27.

5.15 Rehabilitation of 450 mm dia RCC NP-2 class sewer line at Shaheed Bhagat Singh Marg from Bangla Sweets to Shivaji Stadium, which includes rehabilitation work of a 450 mm dia sewer line with an approximate pipe length of 834 m. is likely to be completed in the next FY 2026-27.

5.16 Rehabilitation of 610 mm dia sewer line at B.H.S. Marg from Leela Hotel to Pillangi Village Community Centre, which includes rehabilitation work of a 610 mm dia sewer line with an approximate pipe length of 1417 m. is likely to be completed in the next FY 2026-27.

5.17 Rehabilitation of 1676 mm dia brick barrel from Ring Road red light to Pillangi Village (Vinayak Mandir Road), B Avenue, which includes rehabilitation work of a 1676 mm dia sewer line with an approximate pipe length of 1367 m. is likely to be completed in the next FY 2026-27.

5.18 Rehabilitation of 450–747 mm dia sewer line from Tyagaraj Marg to Duplex Road, Sunehari Bagh Road, and Motilal Nehru Marg up to Q-Point, which includes rehabilitation work of 450–747 mm dia sewer lines with an approximate pipe length of 2996 m. is likely to be completed in the next FY 2026-27.

5.19 Rehabilitation of 400/450 mm dia sewer line in the lane behind Taj Hotel, which includes rehabilitation work of 400–450 mm dia sewer line with an approximate pipe length of 490 m. is likely to be completed in the next FY 2026-27.

5.20 Rehabilitation of sewer lines in Aliganj and Jor Bagh, which includes rehabilitation work of 300, 381 and 450 mm dia sewer lines with an approximate pipe length of 1959 m. is likely to be completed in the next FY 2026-27.

5.21 De-silting and rehabilitation of 990–1143 mm dia sewer line by cured-in-place pipe (CIPP) method from Shanti Path to Satya Sadan via Kautilya Marg, Madhu Limaye Marg and along Kushak Nallah, which includes rehabilitation work of 990–1143 mm dia sewer line with an approximate pipe length of 2678 m. is likely to be completed in the next FY 2026-27.

5.22 Rehabilitation of Brick Barrel from Kushak Nallah to Aurbindo Marg at Brigadier Hoshiyar Singh Marg by Structural lining method, which includes rehabilitation work of 1350 x 2000 mm dia. Egg-shaped sewer line with an approximate pipe length of 968 m. is likely to be completed in the next FY 2026-27.

In the year 2026-27, I propose to allocate **Rs.248.61** Crore for Sewerage Department out of which **Rs. 121.27** Crore is towards capital expenditure and **Rs. 127.34** Crore towards revenue expenditure.

6. RELIABLE NDMC: DRAINAGE SYSTEM

6.1 In modern cities, it is imperative to drain the water not only to avoid leakage, water logging, flooding during monsoon season but also to rationally utilize such water for various usages under the concept of Blue-Green infrastructure. Rehabilitation of drainage system is essentially required at regular intervals.

6.2 There are 14 drainage systems in NDMC area out of which about 53 km of main drainage system which varies from 600 mm to 2057 mm and the transfer underground drainage line is about 270 km of size 450 mm to 900 mm. The oldest drainage line in NDMC area was laid around 80 years back. The rehabilitation work has not been carried out since being laid with the result every year number of cases of settlement of barrel/drainage system are occurring during monsoon period. This causes many instances of traffic inconvenience and road safety in NDMC area.

6.3 For Pre and Post-consultancy, a consultant is being appointed for assessment of condition for Rehabilitation of 14 drainage system including CCTV Survey. The project is at RFP stage and the project shall take off after receiving of report from consultant during the next FY 2026-27.

In the year 2026-27, I propose to allocate **Rs.24.58** crore towards improvement of drainage system out of which **Rs.17.40** crore towards Capital Expenditure and **Rs.7.18** crore towards Revenue Expenditure.

7. STRONG NDMC : BUILDING, BRIDGES & URBAN ASSETS

Civil infrastructure is necessary to meet the public demand, augment the capacity and enhance the usability of existing capacities. NDMC has created many structures for community, social requirement and in the welfare of its own employees.

Now, I would like to apprise the status of civil works undertaken earlier and proposals for the next FY 2026-27.

7.1 Multi-Storey Comml. Complex at Akbar Bhawan

a. Existing Building: An Architect Consultant/ Transaction Advisor is being appointed to submit a proposal for renovation / redevelopment including the option of development such as PPP etc. The project is likely to take off during the next FY 2026-27.

b. New Proposed Building: A New building is also proposed to construct and modality for its construction will be finalized in the current FY 2025–26.

7.2 Integrated Transit Transport Infrastructure – Redevelopment of Shivaji Terminal

Earlier, a comprehensive project with the provision of various mode of public transport comprising of bus terminus, bicycle sharing station, auto rikshaw alongwith parking facility of 113 vehicles was proposed to develop at Shivaji Stadium Terminal. The NDMC Council has accorded in-principle approval to execute the project departmentally. The work is likely to be take off in the FY 2026-27 and targeted for completion in the FY 2027–28.

7.3 Construction of Skill Development Center at Moti Bagh

The 90% work of Five Storied building of ‘Skill Development Center’ at Moti Bagh has been completed. Major works such as Outer Development, fixing of railings and gate, firefighting work, testing of Lift and HVAC are in progress. The work is likely to be operational in the FY 2026-27.

7.4 Structure for JPN Library at Mandir Marg

In order to make knowledge hub, there is a vision to

create an iconic e-library. The civil, electrical, and horticulture works are almost complete. Procurement of furniture and books is in progress. The work is likely to be operational in the FY 2026-27.

7.5 Housing for Municipal Employees

In order to provide accommodation to its employees, NDMC constructs various types of accommodation for which current status of the projects is as follows.

7.5.1 Construction of 120 Nos. Type-II Flats at Sector VII Pushp Vihar, Saket, New Delhi

The work has already been completed and handed over to BM Division- III for further maintenance and allotment to the NDMC employees.

7.5.2 Construction of 160 Nos. Type-III Flats at Sector VI, Pushp Vihar, Saket, New Delhi

The work is in progress, with internal finishing currently underway. External development works, including boundary wall and STP are yet to commence. The flats are targeted to be completed in all respects during the FY 2026-27.

7.6 Redevelopment of Bapu Samaj Sewa Kendra, P.K. Road, New Delhi

The work for development of SCADA for Electricity Distribution business at Bapu Samaj Sewa Kendra is in progress which is likely to be operationalized in the next FY 2026-27.

7.7 Renovation and Development Works at NDMC, Palika Kendra Building

Palika Kendra Building is the Headquarter of New Delhi Municipal Council. The building had been raised in early eighties as an iconic one and is in need of

renovation. For strengthening and face lifting of facade of both the buildings of Palika Kendra including convention centre, the appointment of the Architect Consultant is in process. Based on the inputs from the Architect, the tender is likely to be awarded during the FY 2026–27.

7.8 Commercialization of Housing Complex at Prithviraj Road Market

We are in process to engage expert consultant (Transaction Advisor) for development of this area. The work is likely to be started in the FY 2026-27.

7.9 Renovation and Redevelopment of Market Complexes

NDMC is also taking up comprehensive redevelopment of its prestigious markets to take care of their future prospects, high volume of visitors and safety considerations and make them as model markets. The proposed works cover the renovation and upgradation of major commercial complexes, namely Khan Market, Super Bazar, Akbar Bhawan, Palika Bazar, Gole Market, Mohan Singh Place, and SBS Place (Gole Market). The structural and architectural consultants are being deployed. Based on inputs from the consultant, comprehensive upgradation of these complexes will be started during the next FY 2026–27.

7.10 Renovation and Redevelopment of Market Complexes Transferred by L&DO

The NDMC has taken up the re-development of market places which have been transferred by L&DO as per the new provisions of Delhi Master Plan 2021. A comprehensive re-development plan of all the transferred Markets is in process and the project is likely to be materialized in the next FY 2026-27.

In the re-development proposal, NDMC is planning to make all the floors as commercial use as a local area shopping Centre as per Delhi Master Plan 2021.

7.11 Conservation & Restoration of Main Gole Market Heritage Building

Under the conservation and restoration of heritage buildings, NDMC is undertaking the restoration of the main Gole Market Building as the “Veeranga Museum,” along with development of the adjoining areas. The project aims at comprehensive structural strengthening as well as enhancement of the architectural and aesthetic character of the heritage building. The work is currently in progress, and the subway and other allied works have already commenced. The project is targeted for completion by March 2026.

7.12 Precincts Improvement Project

The prestigious Hanuman Mandir, which invites lakhs of devotees needs better space management, security and upliftment to enhance the devotees experience. We will take up a comprehensive Precinct Improvement Project for the same and add more sites as needed. A project for cleaning and upliftment of Shri Hanuman Mandir Vatika, BKS Marg is in progress. The collaboration with SBI is being explored. The process is likely to be completed in next FY 2026-27.

7.13 Renovation of NDMC Office/Commercial Complexes

NDMC is going for renovation and up-gradation of various markets commercial complexes to provide smart appearance along with modern facilities for citizens. The proposal and scope of work for appointing an appropriate architectural consultant/ transaction

advisor are under process. Appointment of consultants for each complex is targeted by March 2026. Based on the consultant/transaction advisor's report, the work is likely to commence during the next FY 2026-27.

7.14 Upgradation of Navyug School at Pandara Park

Following the visit of the Hon'ble Prime Minister to Navyug School, Pandara Park, NDMC has decided to upgrade the Model School functioning under its control. A Structural Consultant has been appointed for this purpose and the report is expected by March 2026, The project is targeted for completion during the next FY 2026-27.

7.15 Improvement to all ESS in NDMC Area

All the ESS buildings in NDMC area need to be improved aesthetically as well as structurally. Work for improvement of ESS in NDMC area is in process for betterment and effective power supply. The work is likely to be completed in the next FY 2026-27.

7.16 Improvement in Valmiki Basti at Mandir Marg

The condition of 321 Type-I Flats at Valmiki Basti are in dilapidated conditions and need to be improved. The tender for improvement work has been invited and the work is likely to be completed in the next FY 2026-27.

In the year 2026-27, I propose to allocate **Rs.147.25** crore towards improvement of Civil Building Department out of which **Rs.100.71** crore towards Capital Expenditure and **Rs.46.54** crore towards Revenue Expenditure.

8. TECHNOLOGY MAXIMUM : INFORMATION TECHNOLOGY GOVERNANCE

The New Delhi Municipal Council reaffirms its commitment to fostering a digitally empowered civic ecosystem aligned with the vision of the Government of India's Digital India Programme. For FY 2026–27, NDMC's Information Technology Department has outlined a forward-looking and citizen-oriented digital roadmap aimed at enhancing service quality, promoting operational transparency, and expanding the reach of mobile-first governance.

Our digital initiatives for the upcoming financial year focus on process re-engineering, paperless administration, enhanced data-driven decision-making, and wider adoption of emerging technologies such as Artificial Intelligence (AI), Machine Learning (ML), Geographic Information Systems (GIS), and Digital Twin technologies. These efforts collectively aim to reduce the need for physical visits to municipal offices and ensure seamless, secure, and time-efficient service delivery for all residents and stakeholders. This ultimate recognition for public service coming to a municipal organization is a unique distinction.

Now, I will furnish the status of various IT initiatives taken during the year 2025-26.

8.1 Complete Digitization of The Civic Services Documents

NDMC has undertaken an ambitious initiative to fully digitize all municipal records and files. Under Phase-I, more than 2 crore pages have already been digitized. In Phase-II, 1.60 crore pages have been digitized so far, and the remaining work is targeted for completion by the end of the current financial year 2025–26. With this achievement, NDMC is poised to accomplish complete

digitization of its municipal records, marking a significant milestone towards transparent, efficient, and paperless governance.

8.2 Artificial Intelligence Based Chat-Bot Facility

Following the successful implementation of the NDMC Chatbot, the Council has approved its up-gradation with Artificial Intelligence to further enhance service delivery for both citizens and employees. BISAG-N has been on-boarded for implementation of this initiative. Work has already commenced and the AI-enabled Chatbot is targeted for completion by the next FY 2026–27.

8.3 Data Back Bone: Palika Net

The MPLS-based Palika Net Data Network has been successfully implemented at 185 out of the 189 identified sites. The remaining locations are scheduled to be completed within the current financial year 2025–26, thereby ensuring a robust, secure, and reliable data backbone for seamless NDMC operations.

8.4 Comprehensive Cyber Security Audit

A comprehensive cyber security audit will be undertaken covering all NDMC applications, network systems, and hardware infrastructure hosted at the NDMC Data Centre. Several applications are already under process for security audit. The entire audit, encompassing all applications along with the associated hardware and network infrastructure at the NDMC Data Centre, is targeted for completion by the next FY 2026–27.

8.5 New Electricity-Water Billing System In NDMC

NDMC has deployed an ERP-based SAP billing system

for electricity and water services to enhance revenue efficiency, improve ease of doing business, and reduce consumer grievances. The development of the consumer portal, management dashboards, and the prepaid metering system is currently in progress and is expected to be completed by the next FY 2026–27.

8.6 High Bandwidth, Local Area Network In NDMC School

In order to achieve the objective of better connectivity to improve the learning experience of students with seamless browsing which also help in better administration. The work of providing High Bandwidth, LAN in NDMC School has been initiated and likely to be completed in the current FY 2025–26.

8.7 AI/ ML based 311 app

It is proposed to develop a next-generation version of the NDMC 311 Mobile App integrated with advanced Artificial Intelligence and Machine Learning capabilities. The upgraded platform will enable predictive service delivery, automated classification and intelligent routing of grievances, improved complaint tracking, and enhanced citizen engagement through real-time feedback and actionable insights. BISAG-N has been on boarded for this initiative, work has already commenced, and the AI-enabled Chatbot is expected to be completed by the next FY 2026–27.

8.8 Implementation of EHRMS 2.0 in NDMC

NDMC is transitioning its workforce to the e-Human Resource Management System (e-HRMS 2.0) developed by the Department of Personnel & Training (DoPT), Government of India. The unified digital HR platform will modernize and digitize all HR processes, enhance transparency in personnel management,

improve administrative efficiency and reduce paperwork. The system is ready for launch, and approximately 10,111 employees have already been on boarded on the e-HRMS application. . The project is planned to commence in the FY 2025–26.

8.9 Collaboration of NDMC with Delhi police safe city project

NDMC, in collaboration with Delhi Police, is implementing the Safe City Project under the Nirbhaya Fund scheme of the Government of India to enhance the safety and security of women and children in public spaces. The project aims to create a safe, secure, and empowering environment by enabling mutual sharing of CCTV camera feeds between NDMC and Delhi Police. The execution of the project has commenced and live feeds from 82 CCTV cameras have already been integrated into the NDMC Integrated Command and Control Centre (ICCC). The work for laying of leased line connectivity is at the awarding stage and is expected to be completed during the FY 2025–26.

8.10 Rolling out New payroll system for NDMC employees

NDMC proposes to roll out a new payroll system to ensure smooth, efficient, and transparent functioning of salary and payment processes for its employees. The BISAG-N has already commenced work on the project. The project is scheduled to roll-out in the next FY 2026–27.

8.11 Annual Maintenance Contract (AMC) of Disaster Recovery (DR) Site

The Disaster Recovery (DR) Site is a critical component of NDMC's IT infrastructure, ensuring business continuity and data protection in the event of

system failures, cyber incidents, or natural disasters. To maintain uninterrupted availability, optimal performance, and readiness of the DR infrastructure, an Annual Maintenance Contract (AMC) is in place. The scope of the AMC includes preventive and corrective maintenance of DR servers, storage, network devices, and backup systems; regular health checks, patch updates, and performance tuning; support for data replication, failover, and failback operations; and provision of on-call technical support with time-bound resolution of hardware and software issues. Renewal of the AMC ensures that the DR site remains fully operational, compliant with disaster recovery policies, and capable of supporting critical applications during emergencies, thereby minimizing downtime and service disruption. The work has been completed in the FY 2025–26.

8.12 VPN Solution for Remote Access to e-Office and Data Centre Services (3 Years)

A VPN solution has been implemented to provide secure and encrypted remote access to NDMC's e-Office and Data Centre services for authorized users. With increasing requirements for remote working, field operations, and inter-departmental coordination, the deployment of a robust VPN infrastructure has become essential. The solution ensures secure authentication with role-based access for officers and staff, encrypted communication between remote users and NDMC's internal systems, high availability and scalability to support multiple concurrent users, and compliance with government cyber security guidelines. The 03 year VPN solution enhances productivity, strengthens data security, and improves operational flexibility, while significantly reducing the risks associated with

unauthorized access and data breaches. The work has been completed in the FY 2025–26.

8.13 Procurement of Red Hat Open Shift Virtualization for NDMC Data Centre

Red Hat Open Shift Virtualization has been procured to modernize NDMC’s Data Centre by enabling hybrid virtualization and container-based workloads on a unified platform. The solution allows existing virtual machines to operate alongside cloud-native applications in an efficient and scalable manner. The procurement aims to improve resource utilization and overall infrastructure efficiency, enhance scalability, performance, and application deployment speed, strengthen security through enterprise-grade container orchestration, and reduce dependency on legacy virtualization platforms. Implementation of Open Shift Virtualization supports NDMC’s digital transformation initiatives, provides long-term operational flexibility, and aligns the Data Centre with modern, cloud-ready technologies. The work has been completed in the FY 2025–26.

8.14. Facility Management System (FMS) & AMC of IT Infrastructure

The Facility Management System (FMS) along with the Annual Maintenance Contract (AMC) of IT Infrastructure has been implemented to ensure continuous availability and smooth functioning of servers, storage, and network equipment across NDMC. The scope includes timely maintenance, troubleshooting, and replacement of faulty components, as well as regular software updates, security patch management, and performance monitoring. Together, the FMS and IT Infrastructure AMC strengthen administrative efficiency, enhance system reliability,

and improve overall service delivery, while minimizing downtime and operational risks. The work has been completed in the FY 2025-26.

8.15. Geo tagging of properties in NDMC area

Tax department captures various information/data from PTR of tax payer which is helpful in correct assessment of private properties. This gives a clear picture of the nature of property commercial, non-commercial, self-occupied and rented etc. New ERP system is at advance stage which has inbuilt facility for geo tagging of the properties. The geo tagging would be completed upon self-successful implementation of the ERP. It is likely to be completed in the next FY 2026-27.

For further advancement of these objectives, the following major initiatives have been proposed for the FY 2026 –27:-

8.16 QR Code Enablement for Receipt Centers

NDMC will implement QR Code-based digital payment solutions across all Receipt Centers. This will streamline municipal payments, facilitate secure and instant cashless transactions at NDMC receipt counters through UPI, Debit Cards and Credit Cards to promote broader digital financial inclusion for citizens. The work will be completed by the next FY 2026–27.

8.17 Implementation of PRICE (Project Information & Cost Estimation)

NDMC will adopt PRICE, an advanced e-Governance platform with the support of NIC. The system will automate project estimation, standardize approval workflows, streamline cost management and provide real-time monitoring of public works so as to ensure better accountability and timely project delivery. The

work will be started in FY 2025–26 and completed by FY 2026–27.

8.18 Digital Twin of NDMC Area

A comprehensive Digital Twin of the NDMC area will be developed, creating an interactive, real-time 3D virtual ecosystem of municipal assets, infrastructure and utilities. This next-generation system will support smarter urban planning, improved infrastructure management, enhanced disaster preparedness and optimized municipal service delivery across NDMC’s high-priority zones. The work will be done in phased manner and will be completed by the next FY 2026–27.

8.19 Upgradation of NDMC GIS

The existing NDMC GIS platform will be enriched with Digital Door Numbering to improve property identification, strengthen service-level mapping and support accurate planning and asset management. This enhancement will enable more precise delivery of municipal services and better integration with other digital platforms. The work will be completed in the next FY 2026–27.

8.20 Deployment of Self-Service Payment Kiosks

Self-Service Kiosks will be installed at strategic locations to allow citizens to independently access key NDMC services and make payments without the need for manual assistance. This initiative will reduce waiting times, improve accessibility and enhance the citizen experience particularly for senior citizens and differently abled persons. The work will be completed in the next FY 2026–27.

8.21 Mobile Version of All Citizen-Centric Services

To reinforce the mobile-first governance approach, NDMC will develop mobile-responsive and app-based versions of all citizen-centric services. This initiative aims to ensure round-the-clock accessibility, improve user convenience and expand digital adoption among residents, businesses and visitors. The work will be completed in the next FY 2026–27.

In the coming year, NDMC proposes to spend a sum of **Rs.42.85** crore towards Information Technology Sector out of which **Rs.11.08** crore towards revenue expenditure.

9. SWASTH NDMC : LEVERAGING MODERN HEALTH SYSTEMS MEDICAL SERVICES

The medical Services Department comprises of two major hospitals i.e. Charak Palika Hospital, Moti Bagh comprising of 177 bedded secondary level Hospital providing the specialties i.e Medicine, Respiratory Medicine, Surgery, Orthopedics, Gynecology, Ophthalmology, Pediatrics, Day Care Thallassaemia service, ENT, Dental, Anaesthesia, Radiology, Laboratory and 24x7 Casualty Departments & Palika Maternity Hospital which is a 65 bedded Maternity Hospital at Lodhi Colony. Besides these hospitals, the department also runs 13 Allopathic Dispensary, 01 Chest/ Poly Clinic, 01 Dental Care Clinic, 07 MCW Centres and 08 School Health Programs. Medical Services Department.

Now, I would update the status of various services announced last year.

9.1 Establishment of New Blood Storage Unit at CPH

The technical staff required for Blood storage unit at CPH have been appointed and the unit is working efficiently.

9.2 Anesthesia Work Stations

The work of procurement of 05 Nos. Anesthesia Work Stations (3 for CPH & 2 for PMH) for O.T. is likely to be completed by March 2026.

9.3 Procurement of one (01) unit 1000mA 80 KW Digital Radiography System at CPH Moti Bagh

9.3.1 The Digital Radiography System (DR System) is latest truly digital X-ray system where there is no involvement of inter-mediatory x-ray plates or cassettes and instead the images are directly transmitted to a computer system. As a result, the x- rays can be done faster with true digital image quality, less radiation exposure to the patients and more cost- effective than conventional x-ray system. The work is on tendering stage. The machine is likely to be procured in the current FY 2025-26.

9.3.2 Procurement of two (02) Digital Colour Ultrasound System at CPH Moti Bagh

The procurement of Color Doppler Ultrasound System is completed.

9.4 Upgradation and strengthening of Dental Department

Number of patients had increased exponentially in the past few years, it is more than 1 lakh in a year. Considering foot fall at Dental Department, more

Junior / Senior Residents including two specialties of endodontics (RCT specialist) and Pedodontics (Child specific dentistry) have been recruited. Further, to complete clinical dentistry under one roof and avoidance of referral to higher setups under normal circumstances, we are in process of procuring 8 more dental chairs in current FY 2025-26. Out of the proposed items, dental chairs have already been procured, and tenders for the remaining items have been processed, with procurement expected to be completed in the FY 2025-26.

9.5 Physiotherapy Department

Urban lifestyle and post-surgery cases requires regular physiotherapy. Considering the current and future requirement. The work of up-gradation and procurement of Physiotherapy machines will be completed in current the FY 2025-26.

9.6 Plasma Sterilizer

For sterilization of plastic instruments such as laparoscopes, arthroscopes, and endoscopes in the hospital, a Plasma Sterilizer is required. The procurement of Plasma Sterilizer will be completed in the current FY 2025-26.

9.7 Canteen at CPH and PMH

There is a need of Canteen in CPH and PMH for staff and visitors/attendants. The matter for providing canteen facilities will be taken up in the next FY 2026-27.

Now, I propose the following proposals/ procurement of equipment for Medical Services Department in the next financial year i.e. 2026-27.

9.8 Hormone Analyzer/ CLIA machines

NDMC is in the process of procuring two Chemiluminescence Immunoassay (CLIA) / Hormone Analyzer machines for Charak Palika Hospital and Palika Maternity Hospital to strengthen diagnosis and monitoring of hormonal and biochemical markers essential for maternal, women's, and newborn health.

9.9 Liquid Biomedical Waste Pre-Treatment Devices

Procurement of two fully automatic liquid biomedical waste pre-treatment devices with inbuilt HOCl generators is proposed for Charak Palika Hospital and NDMC Polyclinic to enhance healthcare worker safety and ensure compliance with the Biomedical Waste Management Rules, 2016.

9.10 OT tables

Procurement of new OT Tables to enhance infection control and improve surgical outcomes for caesarean and other obstetric procedures.

9.11 NextGen eHospital

Complete onboarding of all NDMC hospitals and dispensaries onto the NextGen eHospital application to streamline hospital workflows and enable an integrated digital platform covering OPD, IPD, diagnostics, billing, inventory, allied services, reporting, and dashboards.

9.12 Phaco Emulsification Machine

Procurement of Phaco Emulsification Machine which will be helpful in eye surgery.

In the year 2026-27, I propose to allocate **Rs.118.33**

crore towards improvement of Medical Services Department out of which **Rs.12.71** crore towards Capital Expenditure and **Rs.105.62** crore towards Revenue Expenditure.

10. LEVERAGEING TRADITIONAL KNOWLEDGE AYUSH SERVICE IN NDMC

AYUSH Department of NDMC is committed to provide the best medical care to its patients and promoting methods for maintaining good health. The department integrates all AYUSH treatment modalities (Ayurvedic, Yoga, Unani, Siddha & Homoeopathic) under one roof at prominent health complexes of NDMC ensuring a comprehensive and holistic approach that combines both therapeutic and preventive aspects of treatment. The department aims to establish AYUSH as the preferred treatment choice for citizens.

Now, I would update the status of various AYUSH services announced earlier years along with proposals for next FY 2026-27.

10.1 All the work of Homeopathic Unit at Palika Maternity Hospital has been completed and the Hospital complex is functional.

10.2 The mobile clinics for old age homes and NDMC schools have been made functional.

10.3 Ayurvedic clinic at Polyclinic has been opened and operational.

10.4 Conduct of Yoga Sessions

NDMC proposes to organize free yoga sessions for

citizens and NDMC employees in parks, gardens and office premises to promote physical and mental well-being so as to encourage preventive healthcare and community participation through specialized instructors.

10.5 Establishment of 50-Bed AYUSH Integrated Hospital-cum-Research Centre at Sarojini Nagar

With the commitment to promote holistic health and well-being of citizens, NDMC in collaboration with Ministry of Housing and Urban Affairs (MoHUA) and NBCC proposes to establish a dedicated 50-bed AYUSH Integrated Hospital-cum-Research Centre at Sarojini Nagar, New Delhi. The facility will provide comprehensive healthcare services under one roof including Ayurveda, Yoga, Naturopathy, Unani, Siddha, and Homoeopathy along with Panchkarma and naturopathy therapies. The project is proposed to commence in the next FY 2026-27 and expected to be completed within a period of three years.

10.6 Setting up of AYUSH Meditation Centre at Palika Kendra, New Delhi

NDMC proposes to establish a Meditation Centre aimed at promoting stress management, mindfulness and mental wellness for employees. The project is proposed to be implemented in the FY 2026–2027.

10.7 Setting up of AYUSH Herbal Garden

NDMC proposes to develop an AYUSH Herbal Garden to promote awareness of medicinal plants and their role in treating common ailments. The project will include land identification, layout planning, plantation, maintenance, and educational signage along with public awareness programs.

In the year 2026-27, I propose to allocate **Rs.7.63** crore towards improvement of AYUSH Department.

11 SWACHH NDMC: PUBLIC HEALTH

Over the past year, NDMC has achieved remarkable national recognition in the field of sanitation. NDMC has been honoured by the Hon'ble President of India as **a Super Swachh League City**, and successfully secured both **the Water+ Certification** and **5-Star Garbage-Free City Rating**. These recognitions are not merely awards but testimony to NDMC systematic sanitation reforms and the dedication of NDMC teams on the ground.

A landmark collaboration was also established with the Municipal Council Palwal under the **Swachh Shehar Jodi Yojana by MOUHA**. Through this partnership, NDMC is contributing to peer learning, joint action planning, and improved sanitation governance beyond its jurisdiction.

The Public Health Department regularly conducts awareness programs in coordination with RWAs, MTAs, and sanitation staff to promote compliance with the ban on single-use plastics, segregation of waste at source into four streams (wet, dry, domestic hazardous and sanitary waste) and prevention of littering in public areas. These initiatives also encourage adoption of the 3R principles - reduce, reuse, and recycle including home composting practices along with measures for prevention and control of vector borne diseases.

11.1 Night Cleaning: Maximum Efficiency, Minimum Disruption

Sanitation operations were significantly reinforced, especially in high-footfall commercial areas. Major markets such as Connaught Place, Khan Market, Janpath, Sarojini Nagar, Bengali Market among others experienced intensified cleanliness measures including increased wet mopping, night sweeping and mechanized deep-cleaning activities. The deployment of 3 e-karts, 15 battery-operated sweepers and 27 dedicated wet-mopping trolleys in market areas has enabled the maintenance of world-class sanitation standards across these busy public spaces. This will be expanded in entire NDMC area which has 14 markets having 150 km. major footpaths and 132 avenues roads for which many more machineries are being procured. The project of night sweeping drive in all the markets is likely to be started in next FY 2026-27.

11.2 Upgradation PTUs/CTUs

NDMC plans to upgrade and convert its all existing PTUs/CTUs into the state of art designs having Eco friendly features and efficient disposal-based management. Operation, repair and maintenance of existing PTUs & CTUs in the NDMC area are being carried out and 60% of PTUs/CTUs have been completed. Upgradation of remaining 40% PTUs/CTUs shall be completed in the FY 2026–27.

11.3 Smart Public Toilet Units for Women

NDMC has constructed seven pink toilets for women at (i) Sansad Marg near LIC building (ii) Super Bazar (iii) Factory road near Safdarjung Hospital (iv) Sarojini Nagar Market (v) Aurbindo Marg, Safdarjung Hospital side (vi) Inner circle Connaught place opposite B-Block and (vii) At Kalawati Hospital. Feasibility to

construct few more pink toilets is being explored and the project is likely to be started in the FY 2026-27.

11.4 Toilet for Third Gender

NDMC has already constructed toilets exclusively for third gender at 13 locations. For construction of more third gender toilets at 79 locations the work is in progress and will be completed in current financial year 2025-26.

11.5 Installation of Litter Bins

For better handling of waste and ease of citizens, the work for providing and fixing of 1650 stainless steel twin litter bins at various locations across the NDMC area is under process. Additionally, 2,000 dust bins shall be installed along roadsides particularly in and around market areas to eliminate littering in public spaces in the next FY 2026-27.

11.6 Strengthening of Infrastructure for Vector Borne Diseases

For strengthening of infrastructure to contain the Vector Borne Diseases, the procurement of 36 nos. of portable fogging machines has been completed. NDMC is going to launch a Malaria Elimination Programme along with rigorous monitoring of vulnerable areas and timely action for improving health and hygiene in NDMC areas.

11.7 Strengthening of Control of Communicable Diseases

The work of hiring of entomologists and epidemiologists as consultants is in progress and is likely to be completed during the current financial year 2025-26. NDMC has collaborated with MCD to share the services of an entomologist while the deployment

of an epidemiologist is under process which is likely to be posted in the next FY 2026-27.

11.8 Long Term Solid Waste Management Plan

For preparation of Long Term (25 years) Solid Waste Management Plan, Performance Audit of NDMC solid waste management activities have been completed by third party agency. Based on the approved report, the proposal for management of MSW and C&D is at tendering stage and the work is likely to be started in the next FY 2026-27.

11.9 Framing of Plastic Waste Management Bye-laws

NDMC, Health Department is incessantly aimed to reduce plastic pollution and promoting environmentally sustainable waste management practices. NDMC has organized awareness campaigns, plastic waste reduction drives and citizen engagement activities to encourage source segregation, responsible waste disposal and adoption of eco-friendly practices in order to make environment clean and healthy for the people. These efforts will be continued during the next FY 2026-27.

11.10 Anti Smog Guns

In the present scenario, the NDMC area is facing severe air pollution which poses serious health hazards to residents. To mitigate this health hazard, NDMC hired 8 Nos. truck-mounted anti-smog guns last year. Furthermore, NDMC is planning to procure additional anti-smog guns to further control and reduce air pollution within the NDMC area.

11.11 Waste Management & Recycling

There will be a major push to tackle New Delhi's waste

management challenges. We are in process to establish more waste segregation and recycling facilities. These initiatives will aim to reduce landfill waste and encourage citizens to be more conscious of waste disposal, promoting composting, recycling and reusing. Strengthening decentralized waste collection. Portable compactors at Tolstoy Marg are already operational. The work at Udyan Marg and BHS Marg are in progress and likely to be completed in the current FY 2025-26.

11.12 Upgradation of facility at Newly constructed Small Pet and Bird Dispensary at Moti Bagh

For taking care of small pets and birds, construction of new building is completed. For further improvement a process of procurement of Advance equipment as Portable Color Doppler Ultrasound for Veterinary, Vet fully automated Biochemistry analyzer, ECG Machine is underway and will be procured in the next FY 2026-27.

11.13 Anupam Colony Zero-Waste Model

Being strengthened and expanded as a flagship initiative focusing on 100% source segregation, decentralized wet-waste processing through Aerobins, Micro-MRFs, and RRR Centers (Neki ki Deewar). The model is proposed to be replicated in 15 additional colonies with ongoing Aerobin installations and sustained IEC with community engagement.

11.14 Dust Free NDMC-Mechanisation of Sanitation Services

To augment capability of our health and sanitation functions by making use of modern machinery, equipment and to reduce dust, NDMC has procured push back manual sweepers for dust controlled

sweeping. Further, Sanitation operations are being mechanized through deployment of 30 Gobbler Machines, 12 Mechanical Road Sweepers, and 4 battery-operated push-back sweepers, leaf sucker with enhanced coverage in markets, residential areas and service lanes to improve last-mile cleaning. NDMC is targeting to shift from conservative brooming/cleaning to 100% mechanized cleaning in phased manner which is likely to be achieved in the next FY 2026-27.

11.15 Veterinary Unit

(i) NDMC is in the process of creating 500–800 additional kennels at the Veterinary Hospital, Moti Bagh for the care of ferocious stray dogs. The work is proposed to be awarded during the current financial year and is targeted for completion in the next financial year 2026-27.

(ii) We are in the process of launching an app-based online service to enable citizens to book appointments for pet vaccination, register their pets and access guidance on handling common pet-related emergencies.

In the year 2026-27, I propose to allocate **Rs.86.88** crore towards improvement of Public Health Department out of which **Rs.2.60** crore towards Capital Expenditure and **Rs.84.28** crore towards Revenue Expenditure.

12. GREEN NDMC : NATURAL RESOURCE CONSERVATION / HORTICULTURE

The New Delhi area is widely known for its rich green cover which provides a soothing microclimate and helps mitigate the heat island effect as well as reduce air and dust pollution to a considerable extent. NDMC

aims to transform all brown and barren stretches into green spaces and accordingly has undertaken large scale plantation drives across the NDMC area. A plantation campaign titled “**Ek Ped Maa Ke Naam**” was organized insisting employees and dignitaries to plant one tree each under this initiative. The drive received widespread appreciation from all sections of the society.

12.1 Plantation Drive Converting brown patches into greens

One of the key focus areas of the Budget is New Delhi’s commitment to becoming a greener city with emphasis on expansion of parks and green spaces and implementation of large-scale tree plantation drives along roadsides, in parks, and across public spaces. These initiatives will not only improve air quality but also provide enhanced recreational spaces for residents. Brown patches that have developed over a time due to multiple factors will systematically be converted into green areas. During the current Financial Year 3,426 trees, 29,93,429 shrubs and 502 bamboos have been planted to enhance green cover and to eliminate brown patches. Additionally, to cover gaps in existing plantations 5100 trees and 4,71,150 shrubs will be planted.

12.2 Tree Washing

Tree washing for mitigating dust and air pollution has been undertaken in a large scale to cover all the roads to maintain dust free environment and lush green eco system in NDMC area. During current FY tree washing work has been completed on 3,565 kms running length of NDMC area. This process will continue in coming days specifically in winter season.

12.3 Development of Green Strips

The work of development of green strips in large scale was taken up during G-20 Summit under which 41 avenues were developed. During the current year major works were undertaken on 24 roads namely: Krishna Menon Marg, Moti Lal Nehru Marg, Jaswant Singh Road, Madhav Rao Scindia Road, C-Hexagon, Mandir Marg, Madhulimya Marg, Satya Marg, Niti Marg, San Martin Marg, Simon Boliver Marg, Jesus and Mary Marg, Nyay Marg, Kali Bari Marg, Peshwa Road, R.K. Ashram Marg, Chandergupt Marg, Sardar Patel Marg, Yashwant Place Lane, Abhai Marg, Hailey Road, BHS Marg, Copernicus Marg, and Tughlak Lane.

In the next FY 2026-27 NDMC will continue its plantation and development drive on Tyagraj Marg, Vinayak Mandir Marg, lanes of Pandara Park ,Babar Road, Dr. Rajendra Prasad Road, lane-by-lane on Shanti Path, and Rajmata Vijayaraje Scindia Marg.

12.4 Beautification of NDMC Residential Colony Parks

The work of beautification of NDMC residential colony parks is of continuous nature. Recently, gap filling and beautification works of Bharati Nagar CPWD residential colony parks, renovation of one park each in Kaka Nagar and Pandara Park area, works in South Avenue and North Avenue Parks have been completed. Further, the renovation and beautification of the remaining parks in Golf Link Colony along with parks and green areas at Pandara Road, Kaka Nagar and Tilak Lane will be undertaken in the FY 2026-27.

12.5 Procurement of Machinery and Vehicles

In order to run horticulture activities smoothly, the Department has procured various horticulture and

maintenance of equipments such as 02 SPPM tree pruning machines, 13 petrol-operated (25") power chain saws, 12 diesel lawn mowers, 02 ride-on lawn mowers, 04 string wheel movers, 06 petrol walk-behind lawn mowers, 32 powered leaf blowers and 32 powered mist blowers. Procurement of 19 powered (25") chain saws, 27 pole pruners, 30 brush cutters, 02 battery-operated ride-on hedge trimmers and 06 e-carts, are expected to be supplied within the current financial year 2025-26. Further, in order to strengthen the mechanized system of the Horticulture Department, machines such as SPPM, hedge trimmers, brush cutters, bobcats, e-carts etc. shall be procured during the next FY 2026–27.

12.6 Development of NDMC Gardens as World-Class Gardens

NDMC takes pride in its gardens and intends to develop them further in a manner befitting their location. We are in the process of engaging Landscape Architect for further improvement.

12.7 Smart Irrigation

NDMC recognizes the importance of water as a valuable resource and is committed to its efficient and judicious use. To achieve water conservation, innovative irrigation technologies are being adopted, including drip and sprinkler systems to optimize water usage in existing green areas. Smart irrigation systems are proposed to be implemented along 13 roads and in 03 important gardens with provision of hydrants in the drip irrigation system for washing of green belts and footpaths.

During the current Financial Year 2025–26, smart irrigation systems have already been installed and made

operational in areas including surroundings of Nehru Park near the Cycle Track, Peshwa Road, Mandir Marg, R.K. Ashram Marg, Bhai Veer Singh Marg, Shantipath, Panchsheel Marg, Ashoka Road, C-Hexagon, Aurobindo Marg, and Akbar Road.

In the next Financial Year 2026–27, smart irrigation works are proposed to be taken up on Maharishi Raman Marg, Lodhi Estate Lanes, Max Muller Marg, Subhramaniyam Bharti Marg, San Martin Marg, Jesus and Mary Road, Manus Marg, Madhulimya Marg, Satya Marg, Chandergupt Marg, Children Park at Madhulimya Marg, Park at Covered Nallah behind Satya Sadan, Niti Marg, Lodhi Garden, Talkatora Garden, and Sanjay Lake Park.

12.8 Tulip Festival

Tulip festival is organized by NDMC every year. The festival was appreciated and admired by the public. In this year, the harvested big size Tulip bulbs are stored in Tulip chamber to prepare for plantation in this season. A part of small harvested bulbs are stored for a trial to increase bulb size. The rest bulbs are transported to CSIR-IHBT, Palampur for multiplication.

The Tulip Festival in 2025-26 was organized successfully. In 2026-27 bulbs of different colours will be planted for which the procurement of 5.175 lakh tulip bulbs for NDMC and DDA has already been awarded. The Tulip Festival will be held in February 2026 and will continue in the following years as well.

12.9 Beautification to make NDMC Area as Flower City

Department intends to beautify the NDMC area with

different type of flowers in all the season. In winter season Department has envisaged a plan for massive plantation of Tulip and other seasonal flowering plants. During summer and rainy seasons more seasonal flowering plants will be added to beautify the NDMC area round the year.

12.10 Flower Festival

To create vibrancy, happiness, riots of colours at single place, the Tulip Festival & NDMC Flower Show will be organized in the FY 2025-26.

12.11 Establishment of Tissue culture lab

To cater the demand of high value plants in NDMC a Tissue culture lab will be established.

12.12 Preparation of Bougainvillea pots for display in NDMC area

The bougainvillea of different colors will be developed in big size pots to display in NDMC area to add flowers in different seasons.

In the coming year, I propose to spend a sum of **Rs. 147.43** crore towards Horticultural activities, out of which **Rs. 26.14** crore is for capital work.

13. PRUDENT NDMC: FINANCIAL STABILITY

Finance is called blood of the organization, funds are the prime requirement to run any organ of the organization. We are committed to provide best citizen services with optimum use of funds.

13.1 NDMC's Credit Rating

NDMC was one of very few municipalities in India to have achieved a credit rating of “AA+” in the year

2017-18, and the same rating has been maintained till date. NDMC will continue to maintain its credit rating in the forthcoming years. Credit Rating for current year has been done by M/s CARE (Credit Analysis and Research Ltd.) Ratings and reaffirmed the Ratings AA+ to NDMC.

13.2 Citizen Centric Budget and Untied Funds

Budget of NDMC is prepared keeping in view the improvement of civic amenities of all the citizens in its area. The suggestions from citizens are invited through sending letters to all the residential welfare Association and Market Association besides providing a link on NDMC Website. I propose to make available untied funds of Rs.10 crores for the Resident Welfare Association (RWAs) and Market Trade Associations (MTAs) of NDMC area for the year 2026-27 with an objective to provide scope for local initiatives and flexibility for local action by the RWAs/ MTAs.

13.3 Pension Fund

To ensure uninterrupted disbursement of future pensioner's benefits to employees of NDMC, we are in the process of establishing the "Pension Corpus Fund" while complying with its regulatory provisions. The matter is in process with Ministry of Home Affairs (MHA).

13.4 Net Zero Benchmark /Carbon /Green Credits

In a climate-sensitive world, it is imperative to assess and reduce our carbon footprint and to leverage environmental initiatives through mechanisms such as carbon credits and Net Zero benchmark. Hon'ble Prime Minister of India has set target to make India as Net Zero Carbon Country by 2070. NDMC acknowledges its environmental responsibility and is committed to

aligning its actions with this initiative. Accordingly, we are in process to achieve Carbon Credits and Net-Zero pathways in collaboration with TERI (The Energy and Resources Institute). The project is likely to take off in next FY 2026-27.

13.5 Innovation Fund

NDMC has created an Innovation Fund in line with the Government of India's vision to promote innovative initiatives and adoption of new technologies. A committee has been constituted to operationalize the fund and evaluate proposed projects. Under this initiative, a pilot project for a 100 KLD Decentralized Sewage Treatment Plant (DSTP) at Bharti Nagar is being developed, which will also generate hydrogen for running a motorbike.

13.6 Online Payment System

In line with the Government of India's mandate on digital payment initiatives, NDMC has adopted all available digital channels and solutions for receipt and release of its various payments. To further strengthen digitization, necessary steps are being initiated to phase out cash, cheque and DD-based transactions and to implement a robust end-to-end online payment system. During current FY 2025-26, NDMC has finalized modalities to transition to a maximum digital payment platform. NDMC continues to augment its digital infrastructure to facilitate seamless online transactions and remains committed to achieving complete digitization of all receipts and payments.

14. CARING NDMC: EMPLOYEE & CITIZEN WELFARE

14.1 NDMC continues to take pride in being a model

employer and remains committed to protecting the welfare and dignity of its employees. Financial assistance to 308 employees has been provided under HNY Scheme for marriage of their children. Immediate financial relief to the tune of Rs.50,000/- each has been provided to families of 132 employees on their sudden demise. NDMC has enhanced grants under HNY specifically for SC/ST employee as a part of social inclusiveness within the workforce.

14.2 Preventive Health Check-up

Health checkup programme for all the employees has been organized by NDMC under which several health checkup camps were setup for the benefit of NDMC employees. This program will also continue in the financial year 2026-27.

14.3 Barat Ghars/Community Centers

Welfare Department is running 08 Barat Ghars, 1 Shadi Ground, 09 community Centers and 76 Parks to extend the community services to its residents and general public. Considering the public expectations and structural conditions, they will be upgraded to contemporary standards.

14.4 Old Age/Widow/ Handicapped Welfare

Financial Assistance of Rs.2,000/- and Rs.2,500/- per month is being disbursed to the beneficiaries under different categories like Old Age, Widow and Handicapped residing in NDMC area. This welfare scheme will continue in the financial year 2026-27. Additionally, NDMC proposes the renovation and upgradation of Old Age Homes in FY 2026–27 to enhance comfort, accessibility, for enhancing quality of care for senior citizens.

14.5 Palika Samman

In order to give encouragement and recognition for outstanding performance of NDMC employees, Palika Samman and Palika Prashasti Awards provided to the employees selected by a committee setup for this purpose. This program will also continue in the next FY 2026-27.

14.6 Mindfulness Centre

To promote holistic wellness, NDMC proposes the establishment of a Centre for Mindful Well-Being at Palika Kendra for FY 2026-27. The Centre aims to provide Stress reduction, improved focus, productivity and positive workplace culture. This initiative reflects NDMC's progressive approach to workplace mental health.

14.7 Working Women Hostel Upgradation

To strengthen facilities supporting working women, NDMC proposes a comprehensive upgradation plan for the Working Women Hostel like Installation of new air-conditioning systems, Upgradation of lifts and modernization of shared amenities, etc.

14.8 Elderly mindfulness and social well-being programme (SILVER CIRCLE)

NDMC proposes to introduce an Elderly Mindfulness and Social Well-Being Initiative aimed at strengthening emotional health, social cohesion, and active ageing among senior citizens. The programme will include structured activities such as heritage and eco-walks, seasonal picnics, community food festivals and curated cultural interactions to enhance social bonding. Complementary mindfulness sessions, light yoga and breathing practices along with formation of small peer-support circles to further promote mental well-being

and reduce isolation among the elderly in the NDMC area.

14.9 Enhancing Healthcare Access Through Online Medicine Delivery

NDMC is exploring the introduction of an online medicine delivery system to enhance accessibility and convenience of employees/ pensioner. NDMC aims to simplify the process of procuring essential medicines so as to reduce physical visits at health centers which also includes senior citizens and patients with chronic conditions. This step is expected to significantly strengthen citizen-centric service delivery and promote a more efficient healthcare support system.

15 INCLUSIVE NDMC : COMPREHENSIVE CLUSTER IMPROVEMENT PROGRAMME

NDMC continues to strive for improving the quality of life of the weaker sections residing in J.J. clusters by ensuring facilities and rights at par with other citizens as equal beneficiaries of municipal services. Keeping in view the existing condition of various J.J. clusters and model urban villages, a comprehensive development programme was proposed in place of fragmented, piecemeal projects. This programme includes provision of roads, water supply, sewerage, sanitation, electricity, rejuvenation of water bodies and façade improvement, adequate street lighting, new water and electricity connections etc. Electricity connections at Sanjay Camp have already been completed while estimates for other J.J. clusters are under process.

16 RESILIENT NDMC: DISASTER MANAGEMENT

A Disaster Management Group under the chairmanship of Secretary, NDMC has been constituted. A comprehensive proposal with regard to preparation of SOP and procurement of equipment to handle the disaster more effectively is in process and likely to be completed in coming financial year 2026-27.

17 COMPREHENSIVE MUNICIPAL SERVICES

17.1 Developing skills-creating jobs

To add employment opportunities for the citizens, an initiative was taken up in partnership with National Skill Development Centre and around 25,000 persons benefited by up skilling training programme. Skill Development Centre will be completed in this FY 2025-26 and a comprehensive plan for skill development in collaboration with specialized agencies will be taken up in the next FY 2026-27.

17.2 Amendment of Ndmc Act 1994 Under Jan Vishwas Policy

The NDMC Act is being amended under the Government of India's Jan Vishwas Policy to promote ease of doing business through decriminalization of minor offences under the NDMC Act, 1994.

- (i) Initiatives are being undertaken for standardization of NDMC contract templates (model drafts) to reduce ambiguity, curb malpractices and minimize frivolous litigation along with implementation of an e-Court system for Estate Officer Courts in NDMC in line with

the e-Court system operational in the Delhi High Court and District Courts so as to enable online litigation management in EO Courts.

17.3 Project Management System

Monitoring a project ensures that the project is being executed as planned. There are many matrix that require monitoring such as the budget, the time taken to completion and standard of quality. Multi departmental issues also creates hurdles in timely completion of the project. In order to enhance synergy amongst the various departments of NDMC, Project Monitoring Cell (PMC) under the chairmanship of senior level officer has been constituted and NDMC is leveraging benefits.

18 SMART PARKING SYSTEM

NDMC is in process of providing a seamless, efficient, citizen-friendly, cost effective parking operation for NDMC area with the capability to scale and integrate the latest technologies which would include smart parking/navigational capabilities with digital payment platforms, operation and management through Integrated Command & Control Centre. NDMC aims to achieve this by upgrading the existing parking lots into Smart Parking by installing Intelligent Parking components and development of software etc. for a period of 10 years. The work is likely to be started in the next FY 2026-27.

19 VISION AND URBAN DESIGN STRATEGY FOR NDMC

NDMC aims to achieve improved urban character and heritage value, a replicable Local Area Plan model, high-quality parks and public spaces, modern and energy-efficient civic buildings, digitized planning and asset systems, and strengthened institutional capacity—reaffirming NDMC’s commitment to a cleaner, greener, safer and more inclusive capital city.

19.1 Local Area Plan (LAP)

We are in the process to implement its first Local Area Plan (LAP) as a pilot project covering approximately 2 square kilometer in the Lodhi Road / Lodhi Colony area. This initiative marks a transition from isolated project-based works to an integrated, neighborhood scale planning approach.

The LAP will include people-first street design, conflict-free circulation for pedestrians, vehicular mobility networks, uniform streetscapes, signages, street furniture, integrated utility corridors, heritage-sensitive façade and urban design controls, upgradation of markets and vending zones and creation of vibrant public plazas and cultural activity areas.

Based on the success of this pilot, the LAP framework will be replicated in a phased manner across other NDMC areas to ensure better inter-departmental coordination, improved service delivery, enhanced safety and accessibility and improved quality of life for residents, workers and visitors.

19.2 Public Spaces, Landscape & Green Infrastructure

NDMC will undertake a comprehensive landscape upgradation programme guided by professional landscape consultants and ecological experts. Special focus will be placed on Lodhi Garden, Nehru Park, and Talkatora Garden covering nearly 200 acres. Works will include heritage-sensitive redesign, improved visitor amenities, ecological plantations, revitalization of water bodies, smart irrigation, rainwater harvesting, and phased execution supported by 3D visualization and monitoring.

The design principles evolved for these flagship parks will be replicated across neighbourhood parks, medians, roundabouts and green corridors incorporating shaded avenues, rain gardens, biodiversity features, walkability improvements and uniform street furniture and lighting.

19.3 Conservation of Heritage Buildings

A structured and scientific approach will be adopted for conservation of NDMC's heritage and legacy buildings through digital documentation, structural safety audits, phased restoration, and preparation of Heritage Maintenance Dossiers, ensuring long-term preservation with adaptive contemporary use.

19.4 Modernization of NDMC Public Buildings

A Building Assessment Committee is constituted to guide phased modernization of NDMC buildings with emphasis on space optimization, energy efficiency, adaptive reuse, monetization and digital asset management. This will enable transformation of public buildings into citizen-friendly, energy-efficient and

revenue-supporting civic assets while reducing long-term maintenance costs.

19.5 Digitization & Smart Governance

NDMC will strengthen digital governance through GIS-based asset mapping, 3D modelling of infrastructure, QR-coded sanctioned plan and digital monitoring of civic services enhancing transparency, efficiency and citizen interface.

20 IMPLEMENTATION OF RASHTRA BHASHA HINDI IN REGULAR OFFICIAL WORK

In order to encourage the use of Rashtra Bhasha Hindi in regular official work, NDMC has organized Hindi Pakhwada–2025, Prize Distribution for use of Hindi on the occasion of Hindi Divas and held Hindi workshops from time to time during the current FY 2025-26. In addition, the quarterly e-magazine “Palika Samachar – Hindi” is published regularly. These initiatives have helped to promote the progressive use of Hindi in official functioning and the practice will be continued in the coming year as well. Now, we are in the process of translating the “**Compendium of Instructions**” issued by the Finance Department in to Hindi language for the convenience of the employees and general public.

21 HUMAN RESOURCE MANAGEMENT

21.1 Settlement of Pay and Pension

In order to resolve the long pending discrepancies in pay/pension related issues a Anomalies Committee has been constituted which has resolved 15 issues related to

6th DTL to 7th CPC pay conversion covering 814 employee.

(i) **MACP/NFSG** Sincere efforts have been made to grant the Modified Assured Career Promotions (MACP) to all eligible regular employees by December 31, 2025. A total of **4,357 employees** were granted MACP cases during the year. The Personnel Department will ensure regular and timely processing of these matters in the coming years as well.

(ii) **Pension/Arrear Issues** The pay fixation of retired/serving employees was processed promptly 9,754 Old pension legacy cases pending since 2022 were settled in the FY 2025-26.

(iii) **Creation of Pension Cell** A dedicated Pension Cell will be established to streamline, expedite and ensure timely completion of all procedures including furnishing of pension forms so that employees receive retirement benefits on the day of retirement.

(iv) **Process Simplification** Steps will be taken to simplify the procedures related to retirement claims, LTC and CEA in consultation with the Accounts/Finance Department following the best practices of the Central / State Government.

21.2 Appointment/ Promotion

a. Departmental Promotion Committee (DPC)

The personnel department conducted 81 DPCs, resulting in the promotion of 954 officials.

b. Requisitions to DSSSB/UPSC

Eleven requisitions were submitted to the UPSC for 32 vacancies and 32 requisitions were submitted to the DSSSB for 354 vacancies across various posts.

c. Compassionate Appointments

One hundred ten eligible applicants were recommended by the Sub-Committee against death cases. Appointments are likely to be made by March, 2026 after completion of other procedural formalities.

d. L M H Scheme for Contractual Employees

We are in process to extend the Liberalised Medical Health Scheme to contractual employees.

21.3 Capacity Building & Professional Excellence

Over the past year, a total of 3,456 employees were trained across 14 different programs. These included training for ministerial staff (50), CCS Rules (1,367), masons (132), engineers (190), linemen (110), Palika Sahayaks (1,000), plumbers (49), gardeners (120), and painters (125). These programs strengthened departmental skills and enhanced overall organizational capacity. In addition, training on the tendering process for engineers from CPWD, along with financial literacy and awareness programs, has also been conducted.

Looking ahead to FY 2026–27, several training initiatives are planned to further build workforce capabilities. These include training of 202 civil and electrical engineers, a welder and fitter program for 20 participants, and an advanced sanitation training for 80

SIs and ASIs. Clerical staff (59) will receive training in noting, drafting, record keeping and file management while another 59 employees will be trained in MS Office and AI systems. Specialized programs are also proposed, including carpenter training for 30 participants, wireman training with 40 participants per batch, and a capacity-building program for 250 Palika Sahayaks to be initiated after procurement of motorized sweepers. Collectively, these initiatives underscore the organization's commitment to continuous learning, skill development, and organizational excellence.

22. TRANSPORT

The Transport Department manages the operation and maintenance of the NDMC vehicle fleet, along with multiple ancillary responsibilities that directly influence operational efficiency. The Transport Department is undertaking significant fleet augmentation to strengthen field operations, sanitation logistics, enforcement activities and administrative mobility across NDMC. We have already hired 28 EVs along with drivers for a period of five years. NDMC is going to procure Electric & CNG based MRS so as to mitigate the pollution.

22.1 Purchase of New Vehicles

The following vehicles are being procured and will be fully commissioned in the financial year 2026-27 into service to cater the shortage of vehicles in NDMC area:-

21 Nos. - CNG Hydraulics Loading Tippers. 23 Nos. - Maruti Eeco Vans (Maintenance Vans) 07 Nos - TATA Ace (Mini Loading Vehicles & Monkey Catching Vehicle) 11 Nos. - Tractors for Horticulture. In order to

maintain economy and to mitigate pollution level a inspection vehicle will be procured in the FY 2026-27.

21.2 Condemnation of Vehicles:

The Transport department has recently auctioned 101 Vehicles (39 Vehicles in Phase-I and 62 vehicles in Phase-II) thereby freeing up valuable space. A case for auction of 23 vehicles has been processed and will be completed in the FY 2026-27.
